

PRESIDENT HUERTA BETRAYS NO SIGN OF YIELDING POWER

Is Cognizant of Increase
Of Enemies Both Within
Capital and in the Field

TAKES OPTIMISTIC VIEW

Gen. Huerta Displays Pride in
Size of Army and Believes He
Will Soon Control Situation

MEXICAN TREASURY IS EMPTY

MEXICO CITY, Jan. 24.—President Huerta betrays no sign of yielding, although he is cognizant of the increase in the strength of his enemies intruding within the capital and those in the field, is handicapped by inability to procure money and is confronted with Washington's determination that he must retire from Mexico's affairs. Personal and political friends and the highest officials of the Catholic church in Mexico who have been endeavoring by methods, for the most part discreetly indirect to bring about his elimination are seemingly convinced tonight that they have failed.

General Huerta talks optimistically of the outlook, displays pride in the size of his army which he estimates at considerably more than 100,000 and appears to believe that despite all obstacles and reverses, he will be able to dominate the situation within three months. It is conceded here that Ex-Minister Flores Magón has failed in his mission to Mr. Lind at Vera Cruz and that the United States will listen to no proposition short of the unconditional elimination of Huerta.

Treasury Practically Empty.
No one—not even President Huerta—attempts to disguise the fact that the Mexican treasury practically is empty. In the capital the government payrolls are being liquidated with reasonable promptness but it is no secret that the diplomatic service representatives and consuls abroad in many cases have not been paid for weeks and that the troops outside the capital often received no pay until after it has been long due.

Extraordinary taxes have been levied in the capital as well as outside points and there are rumors that other degrees soon are to be issued which will exact still greater tribute.

There is little change of importance since last week in the military situation and the residents of the capital are expecting that the rebel chief, General Villa, who has appeared outside of Torreon, will reach here at an early date.

Some believe General Felix Diaz and General Magdonin his chief in the uprising a year ago, are behind the latest uprising. The rebels have not been called upon so far to test the strength of the federals but it is expected the coming week will see an engagement.

The chief fear, lies in the possibility that the rebels may cut communications between the capital and Vera Cruz. In large numbers they are raiding the districts through which the inter-oceanic and Mexican railways extend, and neither line is adequately guarded.

Massacred by Rebels.
Mexico City, Jan. 24.—One hundred women and children and 150 federal soldiers were massacred by rebels recently near Vanegas north of San Luis Potosi, according to reports received here today.

The soldiers with the women, surrendered to the rebels, were taken to a ranch near Matehuala where the alleged butchery occurred. Major Rebollo, Captain Ramirez and a handful of men were the only ones to escape. They arrived here today bringing news of the affair which occurred several days ago.

PRISONER IS PARDONED FOR HIS EFFICIENT WORK ON ROADS

SPRINGFIELD, Ill., Jan. 24.—The first prisoner to reap an official reward for efficient work on convict built roads in this state is William McEnerney who was pardoned by Governor Dunne today.

McEnerney was sentenced in 1907 to serve an indeterminate sentence for assault with intent to kill. He was one of the squad of prisoners put to work when the state administration last summer decided to employ convicts on the roads.

RAILROAD STRIKE ENDS.

Lisbon, Jan. 24.—The railroad strike which began Jan. 14th, was declared ended tonight. The employees will return to work without having obtained any advantages.

NO CONVICTIONS IN MOYER-TANNER CASE

GRAND JURY IN HOUGHTON RETURNS
"NO TRUE" BILL

Special Prosecutor Asserts There is
No Law by Which the Men Who
Deported Moyer Could be Punished
Even if They Were Identified
—Four Other "No True" Bills
Reported.

HOUGHTON, Mich., Jan. 24.—None of the members of the crowd who assaulted Charles H. Moyer, president of the Western Federation of Miners in Houghton on the night of Dec. 26, and then deported him, were identified to the satisfaction of the special grand jury and a "no true" bill was returned in the case this afternoon. George E. Nichols the special prosecutor decided there was no law under which the men who were alleged to have forced Moyer on the train could be punished even if they could be identified and he so informed the jury.

He presented the names of seven men, all members of the Citizens' Alliance who were alleged to have been involved in the affair and sought their indictment on the charge of assaulting Moyer with the intent to do him a great bodily harm, less than the crime of murder. The jury made a thorough investigation of the case. Twenty seven witnesses including Moyer and Charles H. Tanner, another federation official who was deported with Moyer, were examined. None of them, it is said, were willing to swear positively as to the identity of any members of the crowd.

"I have no comment to make," said Tanner tonight when informed of the grand jury's action. William Davidson a member of the executive council of the federation who is in charge of forces of the copper mine strikers, also declined to discuss the case.

Other union leaders expressed no surprise that the jury had failed to return any indictments.

Four Similar Bills Reported.
Four other "no true" bills were reported. One was in the case of John Lavers, the deputy sheriff who was charged with shooting Margaret Pazekas at Kearsarge during the Labor Day disturbances. Another exonerated Isaac Grasonovich and Thomas Rossman of the murder of Harry Jane at Painesdale on Dec. 17th. Jane was one of the non-union men who were shot to death in their beds with rifles in the hands of unknown persons outside the house.

Peter Honke, who was charged with shooting George Gregorich, on Nov. 7th, also was exonerated in the fourth "no true" bill. In the fifth bill nine strikers who were charged with assault on John Lavers, the deputy sheriff mentioned in the first bill on Sept. 7th, were cleared. One felony indictment was returned but it was not to be made public until an arrest has been made. The grand jury asked the court for more time within which to consider several other cases brought to the attention of the special prosecution by union leaders. Judge O'Brien announced that he would receive the final report from the jury next Wednesday morning.

SOLDIER PREFERS DEATH TO COURT MARTIAL

Private at Leavenworth Was to be
Tried on Charge of Perjury.

Leavenworth, Kans., Jan. 24.—Rather than suffer the humiliation of being tried by court martial on a charge of perjury Morgan C. Hall, a private at Fort Leavenworth, shot and killed himself today. He was charged with perjury for testimony he gave at the trial of an army officer. He was a guard at the military prison and killed himself just before the arrival of soldiers who had been sent to escort him to the court that was to try him.

COLD IN FRANCE.

Paris, Jan. 24.—The cold is so intense in Northern France that the harbors are gradually closing up. Temperatures ranging from 25 to 28 degrees below freezing were recorded at various points today and the inside basin of Dieppe harbor was entirely covered with thick ice.

AMERICAN PAINTER DIES.

Chicago, Jan. 24.—Peter A. Gross an American landscape painter, resident in Paris for the last forty years, dropped dead in his hotel here today. Mr. Gross came here to exhibit his paintings.

DENY ATTORNEYS RIGHT OF CROSS EXAMINATION

RULING IS MADE AGAINST COUNSEL
FOR ARMOUR PACKING CO.

Attorney Boyle, Conducting Hearing
on Refrigerator Car Lines, Makes
Ruling Because Armour Interests
Refuse to Recognize the Authority
of the Inter-State Commerce Com-
mission.

CHICAGO, Jan. 24.—Attorneys for the Armour Packing interests today were denied the right to cross examine witnesses at the inter-state commerce commission hearing on refrigerator car lines.

Attorney George P. Boyle, conducting the examination said he made the ruling because the Armour interests have refused to recognize the authority of the commission. The Armour car lines, through its vice-president Frederick W. Ellis, refused to produce records and answer questions and contempt proceedings are under way to compel the company to submit.

Patrick J. Farrell, solicitor of the commission who arrived in Chicago today from Washington said he would present a petition to one of the district judges Tuesday asking that the Armour interests be forced to recognize the authority of the commission. The ruling on this question will establish an important precedent, it is said.

J. S. Leeds, president of the Santa Fe Refrigerator Dispatch which was organized in 1902 and operates 2,452 cars, asserted the company was losing money. He said seventy per cent of the cars were returned loaded.

"But we have lost \$70,000 since 1912," he said. "Before that we were \$76,000 to the good. We invested in expensive equipment and lost."

B. W. Redfern, president of the Frisco Refrigerator line, owned by the St. Louis & San Francisco railroad, said the company was organized because "we couldn't get cars from the railroads." He said the separate organization was more efficient but not more profitable. Depreciation on refrigerator cars should be made six per cent, he said.

MANY IDLE IF OUSTER ORDER IS CARRIED OUT

More Than 1,000 Persons in Kansas
City Will Be Thrown Out of Em-
ployment Unless Judgment Is
Modified.

Jefferson City, Mo., Jan. 24.—Two large office buildings in Kansas City will be emptied and large companies doing business estimated at \$40,000,000 annually will be forced to find new homes, if the order of ouster issued by the Missouri supreme court of Dec. 21th, is carried out. This statement was made in pleadings filed with the supreme court today in behalf of the commercial interests of Kansas City. The supreme court order in question returned judgments of fine and ouster against more than a score of large companies operating in Missouri.

The pleadings stated that Kansas City is the largest yellow pine market in the world. These companies, it was said, employ more than 1,000 persons in Kansas City, all of whom will be thrown out of employment unless the judgment is modified.

AUDITOR BRADY ISSUES TWO BANK PERMITS

Bill State Bank of Chicago and
Farmers' & Merchants' State Bank
of New Baden Organized.

Springfield, Ill., Jan. 24.—Auditor of Public Accounts Brady today issued a permit to Alonzo H. Hill, Forest Hill and Charles E. Mitchell to organize the A. H. Hill & Co. State Bank in Chicago. The capital stock is \$200,000. The bank will succeed the private bank of A. H. Hill & Co., at 3600 Irving Park Boulevard.

The auditor also issued a permit to August F. Ackermann, B. R. Hertenstein, Fred Schlafly, August Schlafly and H. J. Schlafly to organize the Farmers' & Merchants' State Bank at New Baden, Clinton county. The capital stock is \$30,000. The bank will take over the business of the bank of New Baden, a private banking house.

REFUSES TO PERMIT CHURCH ON RESERVATION

War Department Refuses Roman
Catholic Church's Request.

Washington, Jan. 24.—The war department has refused permission to the Roman Catholic church to construct a chapel on the military reservation on Governor's Island, New York. Judge Advocate General Crowder held that the law authorizing the construction of Y. M. C. A. buildings on military reservations did not grant authority for the erection of denominational places of worship.

DEATH ROLL DECREASES.

Chicago, Jan. 24.—The death roll in Chicago for the last six weeks was 514 lower than the same period a year ago, according to the bulletin of the city health department issued today.

"This is accounted for," the bulletin adds, "by the fact that the mild weather has been more conducive to outdoor living and the more free airing of living quarters."

ALASKAN RAILWAY BILL PASSES SENATE BY LARGE MAJORITY

President Directed to Purchase or Construct 1,000
Miles of Alaska Railway

MAY SPEND \$40,000,000

Broad Powers are Conferred Up-
on President But He Must Not
Spend More Than \$40,000,000

WILSON TO SELECT ROUTE

WASHINGTON, Jan. 24.—By a vote of 46 to 16 the senate passed today the Alaska railway bill directing the president to purchase or construct 1,000 miles of railroad in Alaska at a cost not to exceed \$40,000,000.

Fifteen Republicans and Senator Pointeview, Progressive voted for the bill. Senators Bacon, Hoke Smith and Williams, Democrats voted against it. The bill places upon the president responsibility for the selection of the route from tide water to the interior of Alaska and the construction, equipment and operation or leasing of such lines as he may or may not constitute this route. The broadest powers are conferred upon the president in carrying out his duties.

The bill provides for a redemption fund into which shall be paid seventy five per cent of all monies derived from the sale of public lands in Alaska or of the coal or mineral contents thereof. Machinery utilized in the construction of the Panama canal is made available for the construction work.

Amendments Defeated.

Unavailing efforts to reduce the \$40,000,000 appropriation authorized for the work were made during the closing hours of the debate. Senator Hoke Smith sought to have the appropriation reduced to \$25,000,000 and Senator Smoot to \$35,000,000. Among other amendments defeated were the Norris amendment for government steamship to Alaska; the Pointeview amendment for the sale of Alaska coal at cost to Pacific coast points and the Cummins substitute limiting the construction to one main line. With the consent of the territorial committee the bill was amended before passage to require the senate's approval of the appointment of civil engineers receiving over \$3,000 per annum; to forbid any payment for the good will of existing railways; giving injured employees the right to sue the government and limiting the government's defenses to those provided for in federal employer's liability law of 1908.

A similar bill is pending in the house. Colonel Goethals was the unanimous choice of the senate territorial committee as builder of the Alaska railroad provided for in the bill, according to Chairman Pitman. The president will be urged to assign him to that task, Mr. Pitman added.

Would Improve the Record.
When Representative Barnhart of Indiana demanded today that the house congressional record be pruned of random articles on subjects outside party lines, Representative Langley called attention to the fact that in the last congress he obtained unanimous consent that Mr. Barnhart's eulogy on a dog be inserted in the congressional record. Langley wanted to know if the Indiana member regarded that as extraneous matter.

"I do," Mr. Barnhart retorted, "but inasmuch as I was new on my job then and it was my dog and he was dead I didn't have the heart to object."

"I have forgotten whether it was your dog," Mr. Langley replied, "or whether the dog was dead; but I regarded it as a splendid piece of English and thought it would improve the record."

May Abolish Old Custom.

The ancient custom of Senators filing claims for the seats of others in the senate chamber promises to be abolished. The rules committee will ask the senate to adopt a resolution to cancel all filings and prohibit new ones.

The first claimant has an option on a more advantageous seat in case the occupant dies, retires or is defeated for re-election.

Some senators regard it an ill-omen to have such claims filed by their colleagues.

MARSHAL TO BE PRESENT AT MEETING OF CREDITORS

Chicago, Jan. 24.—To guard against possible disorder at the meeting of creditors of the defunct Tonica (Illinois) Exchange bank at Tonica next Monday, Judge Carpenter in the United States court here today instructed that deputy marshals be present.

John E. Hartenbower and George Hiltbrand, proprietors of the bank are to face the creditors at this meeting. Liabilities of the institution are estimated at more than \$500,000.

O'GORMAN TO TESTIFY AT WHITMAN INQUIRY

U. S. SENATOR WILL TAKE STAND
THIS WEEK AT JOHN DOE HEARING

Will be Called Upon to Testify in
Connection With Charges Recently
Made Against the Tammany Chief
by Sulzer.

NEW YORK, Jan. 24.—United States Senator James A. O'Gorman will take the stand some day this week at Mr. Whitman's John Doe inquiry. Former Governor Sulzer testified last Wednesday that Senator O'Gorman told him on the day of President Wilson's inauguration that Gaffney was Murphy's chief bagman and advised him not to appoint Gaffney commissioner of highways of the state.

Senator O'Gorman told Sulzer, the latter testified further, that Gaffney had tried to hold James C. Stewart, a millionaire contractor, for a million-dollar bribe. Stewart in testimony given prior to the examination of Sulzer asserted that a man who said his name was Gaffney tried to assess him for a campaign contribution. Stewart said he refused and later was unable to get an important barge canal contract. He was unable to say whether Gaffney was James E. Gaffney. It is Mr. Whitman's plan to recall Stewart after Senator O'Gorman has testified and again ask the contractor to identify "Gaffney."

Will Examine Finances.

Officers of savings banks, trust companies and other financial institutions throughout the state have been subpoenaed by District Attorney Charles S. Whitman to furnish him the documents necessary to show the accounts of Charles F. Murphy, leader of Tammany hall and James E. Gaffney, Murphy's political and business associate. This was learned today at Mr. Whitman's office. The wholesale requisition plan aimed at the alleged graft system involving state highway and barge canal contracts, includes the examination of the accounts of Murphy and Gaffney for five years back.

This phase of the inquiry was undertaken as a result of testimony adduced recently and the John Doe inquiry and before the grand jury. The work was begun last night and according to information from Mr. Whitman's office the prosecutor and his assistants have within less than twenty four hours obtained from bank officers knowledge of Murphy and Gaffney deposits that is of great importance. Mr. Whitman has learned for one thing, it was said that Gaffney has made frequent deposits of from \$5,000 to \$15,000 and that his average deposits have amounted to \$100,000 a year. On the other hand, Murphy's accounts it was stated, showed that frequent withdrawals have been made during two years past. Mr. Whitman tried without success to have four banks in New Jersey and two in Pennsylvania furnish accounts of Murphy's and Gaffney's deposits reported to be kept there. The information was refused and the prosecutor is without power to insist upon having it. His search for deposit accounts in this state is being made a ruling of the courts made at the time of the failure of the Carnegie Trust company several years ago.

EUROPEAN POWERS WILL ENFORCE THEIR DEMANDS.

Action of the Powers Intimates Future
of Albania is An European
Question.

London, Jan. 21.—The powers of Europe have decided upon an international demonstration in Albanian waters to enforce their demands that Essad Pasha give up his claim to the throne of Albania. Each nation will send one ship to Durazzo. This action of the powers also is taken as intimation to Turkey that the future of Albania is now an European question.

In the event of Essad Pasha yielding before the arrival at Durazzo of the international fleet as is possible, the ships will be utilized to welcome Prince William of Wied, who has been selected by the European nations to occupy the Albanian throne.

BUILDING COMMISSIONER WILL REMOVE BILLBOARDS

One Thousand Billboards Will Be
Torn Down in St. Louis During
Coming Week.

St. Louis, Mo., Jan. 24.—Nearly one thousand billboards must be torn down by next Friday noon or the city building commissioner will tear them down according to an announcement made by that official today. Notices to the billboard companies to remove the big sign boards were mailed today. The decision to order the removal of the boards is the culmination of a long fight between the billboard companies and the city to the validity of an ordinance regulating the construction of billboards. The ordinance recently was sustained in the federal supreme court and efforts of the billboard companies to have it altered were futile.

BENCH WARRANTS ISSUED.

St. Louis, Mo., Jan. 24.—Bench warrants for the arrest of twelve members of the United Shoe Workers' Union which recently declared a strike were issued here this afternoon on indictments voted by the grand jury. The men are charged with creating disturbances in the neighborhood of one of the factories.

ACCIDENT CONCLUDES WEDDING CELEBRATION

PORCH COLLAPSES DROPPING
DANCERS TWENTY FEET TO GROUND

Aurora Bride of an Hour is Perhaps
Fatally Injured—Groom Lies in
Hospital With Broken Arm and
Internal Injuries—Three Others
Are Seriously Hurt.

AURORA, Ill., Jan. 29.—At a wedding celebration here tonight a porch collapsed under the weight of fifteen dancers who fell twenty feet to the ground.

Mrs. Florence Bish, the bride of an hour, was perhaps fatally injured. At a hospital it was found her internal injuries were serious and that both arms were sprained. Her husband, Joseph Bish is in the same hospital but in another ward with a broken arm and internal injuries. The others seriously hurt were: Mrs. Mary Koughl, hip dislocated, scalp wound.

Mrs. Helen Bargo, shoulder dislocated, head badly bruised.

George Negro, both ankles sprained. All of the other guests were scratched or bruised.

The accident occurred at the home of the bride. The guests were dancing on a front porch after the ceremony and it gave way without warning.

REPRESENTATIVES ATTACK NAVAL "PLUCKING" BOARD

Representatives Tribble and How-
ard Plead For the Abolition of
the Board.

Washington, Jan. 24.—Representatives Tribble and Howard of Georgia attacked the naval "plucking" board today, citing "outrageous cases" of admirals and other officers unable to perform service who were simply drawing salaries and doing nothing as retired men because of the "plucking" system. Representative Howard said Lieutenant Commander Burt of Georgia "was wrongfully charged by certain parties with owing some debts." After Burt had been retired for non-payment, Mr. Howard said, and President Taft had signed an order dismissing him from the service, the president found that Burt did not owe the debts and rescinded his order.

"The swivel chaired admiral was after Burt," Howard continued, "so the plucking board, not more than five months after the president had put Burt back in the service, plucked him for no other reason under the sun than that he had appealed to the president."

The "plucking" of Commandeur Norton retired, because he was "too small to be a commander" also was among those criticised in the appeal for the abolition of the board.

FEDERATION WILL URGE CHANGE IN PRESENT POSTAL BANK LAW

Will Also Assail Postal Clerks to
Obtain Shorter Hours and In-
creased Wages.

Washington, Jan. 24.—Efforts to procure the removal of all maximum limitations on amounts of postal savings deposits, the establishment of checking account privileges and the use of these funds for public works will be made by the American Federation of Labor in accordance with a decision reached today by the executive council at its closing session here. The council decided also to assist the National Federation of Postoffice Clerks to obtain shorter hours for night clerks and increased wages for the postal employees.

The newboys of the country the council agreed, should be organized and brought into direct affiliation with the federation.

Passage of uniform state laws governing advertisement for men during strikes will be advocated, as well as a law prohibiting employment of white women in establishments controlled by Chinese or Japanese.

MINERS' CONVENTION RUNS OUT OF WORK

Will Resume Meeting Tomorrow to
Hear Further Reports of Commit-
tees.

Indianapolis, Ind., Jan. 24.—The convention of the United Mine Workers of America which began its sessions here last Tuesday, ran out of work today and adjourned at noon until Monday morning. Two important committees on wage scale and on constitution said they would not be ready to report until next week.

The committee on resolutions completed its partial report but announced that it would bring in a further report later in the convention. Several of the committees held meetings this afternoon. While the majority of 1,700 delegates remained in the city a number from Illinois, Ohio, Kentucky and Indiana departed late today to spend Sunday at their homes.

BRIEF SENT TO PRINTER.

Concord, N. H., Jan. 24.—Counsel for Harry Kendall Thaw sent to the printer today their brief in the matter of Thaw's petition to the federal court for a writ of habeas corpus. Copies will be delivered to Judge Aldrich and to opposing counsel on Monday.

CAPE HAITIENS IS THREATENED BY REVOLUTIONISTS

American Legation Re-
ports Citizens Form Com-
mittee of Public Safety

SURRENDER PORT DE PAIX

Port De Paix Surrenders to Re-
bels—Revolution Attracts At-
tention of State Department

BRYAN CONSULTS PRESIDENT

WASHINGTON, Jan. 24.—The Haitian revolution, headed by Dav-Far Theodore, an exiled senator recently driven to San Domingo, has reached proportions as to command the serious attention of the state department. The success of a movement of this kind may be regarded as a direct challenge to the administration's policy of disapproval of the erection of governments by force and without reference to the forms of a constitution.

Secretary Bryan already has consulted with President Wilson and though confined to his residence today by a cold, conferred with Boaz W. Long, chief of the Latin-American bureau of the state department as to Haitian affairs.

News was received today at the state department from the American legation at Port au Prince that at Cape Haitien threatened by the rebels, the citizens had formed a committee of public safety; removed government customs officials and placed a commission in charge. Port De Paix has surrendered to the revolutionists and fighting is in progress at St. Marc, recently captured from the rebels.

The action of the citizens at Cape Haitien has brought forcibly to the consideration of the officials here the possible necessity of taking steps to prevent the rebels from profiting by the use of these funds. No information could be extracted in regard to the attitude to be adopted by the state department.

Although no treaty exists as in the case of Santo Domingo, which clothes the United States government with authority over the customs houses, it is understood that ample authority for taking over Haitian customs houses out of control of the national government has been proffered through Ulrich Duvalier, resident Haitian minister here. The naval force available is believed to be quite sufficient for the purpose as the cruiser Montana, due at Port au Prince tomorrow, has a complement of 650 men including a company of marines; the Petrel, now at Santo Domingo City, but within easy reach of Haitian waters, has a crew of 120 bluejackets and the gunboat Nashville at Cape Haitien carries 225 men.

JULIA FLAKE BENEFICIARY OF MURDERED MOTHER'S WILL

GALESBURG, Ill., Jan. 24.—Julia Flake the 15 year old girl who plotted to have her mother killed was the sole beneficiary of her mother's will, which was read today. Robert Higgins, the girl's step-father, who confessed to killing his wife was cut off. The girl broke down and cried when she heard the will.

WILL OPPOSE SHIVELY.

Indianapolis, Ind., Jan. 24.—That Thomas Taggart, Indiana's member of the Democratic National committee will be a candidate for the United States senate against Senator B. F. Shively before the Democratic state convention when it meets in this city March 19th, was the semi-official announcement made here today.

SPARKS FROM THE WIRES

CLBVELAND, O., Jan. 24.—In a fire which swept through the M. & M. Automobile Supplies Company's buildings here today, sixteen firemen and one employee of the company were injured or overcome by smoke and several women were rescued. The loss is estimated at \$160,000.

WASHINGTON, Jan. 24.—A very little improvement was noted late tonight by physicians attending former Senator Shelby M. Cullom, of Illinois. The patient rallied slowly from a severe attack last night but if no new seizure came, the doctors thought the end might be deferred some hours.

MAYVILLE, N. Y., Jan. 24.—Edward Beardsley, who for eight days defied arrest at Summerdale, was arraigned before Justice Young here today on a charge of assault, first degree for the shooting of Postmaster John G. W. Putnam, he waived examination and was held without bail to the grand jury which meets in May.

CORN STALK DISEASE APPEARS FOR FIRST TIME IN COUNTY

Malady Fatal to Horses, Very Prevalent This Year, is Discovered Here—Remedies for the Disease.

Three cases of corn stalk disease, two of which resulted fatally, were discovered among the horses of Morgan county last week, making the first appearance in this community of a malady which has caused the death of scores of animals in other sections of the state and has been particularly fatal near Loami, in southern Sangamon county. One of the horses which died was owned in the western part of the city and the other two cases were in Alexander precinct. The disease makes its appearance suddenly, the horses becoming delirious and lapsing soon into a comatose state. Although the malady has not as yet been fully studied by scientists, authorities are pretty well agreed as to its cause and treatment. It is of fungus origin and is communicated to the stock by eating old fodder and affected ears of corn. Animals thought to be in danger of the disease should be given plenty of salt, plenty of water and a frequent change of feed.

It has been suggested that corn that has been shelled and fanned is less dangerous than corn in the ear. When fed in the ear, the corn should be given a close inspection and all defective looking ends cut off. The regular treatment of the disease consists in the administration of purgatives, diuretics and powerful stimulants and tonics. The greatest safety, however, lies in prevention, as the cases are likely to terminate fatally. With but three cases so far in the county, there is no cause for great alarm, but the experience of other communities shows that too much care can not be taken with such a disease likely to break out among the horses.

Attend Garland & Co.'s clearance sale.

ILLINOIS COLLEGE CONSERVATORY OF MUSIC Registration for second semester will take place Friday and Saturday, Jan. 30-31 at the Director's office in Academy hall. Director Kritch will be glad to confer with any one interested.

No fear from Impurities if your milk comes from the Jacksonville Creamery.

CORN FROM ARGENTINE. Some shelled corn from Argentina has been received in Jacksonville. The grains are somewhat different from those of corn raised in this locality being smaller, thicker and very much harder. Samples are now on display at the Elliott State Bank and the Farmers State Bank and Trust Company.

SOCIAL EVENTS.

Miss Helen Paschall entertained the members of her Sunday school class and a few other friends at her home on West North street Friday afternoon. Games and music furnished amusements and Miss Mary Daniels gave two readings. Elegant refreshments were served and a splendid time enjoyed by all.

The Fortnightly club held its anniversary meeting Saturday afternoon with Mrs. Effie Race of the Illinois School for the Deaf, with thirty members of the club and guests in attendance. "An International Suffrage Convention" was the title of the program of the afternoon which was given as far as possible in the language of the countries represented, even when interpretation was necessary. Each member represented the country which she has on the club program for the year. A novel feature of the cafeteria lunch which followed the program was the decorating of each dish with a flag which told to the guests the country from which that variety of food came.

Joseph Smith of North Main street entertained a number of friends Friday evening in honor of the birthday of his son Elmer Smith and grandson Arthur Angel. The guests enjoyed the occasion exceedingly and the young men were the recipients of a number of beautiful presents. Among those present were Mr. and Mrs. Lee Wolke, Mr. and Mrs. Newton Angel, Mr. and Mrs. Arthur Angel, Miss Eliza Vieira, Miss Georgia Souza, Frank Menezes and Mr. and Mrs. Joseph Smith.

Miss Helen Strangberg was given a happy surprise at her home 134 Howe street Friday evening, by 25 of her friends, the occasion being her sixteenth birthday. The evening was spent with games, music and dancing, and some delightful refreshments were served.

COMMODORE BENEDICT 80 YEARS OLD. New York, Jan. 24.—Commodore E. C. Benedict, for many years a leading figure in financial and yachting circles in New York, reached his 80th birthday anniversary today. He expects to live and enjoy quite a few more birthdays, as the members of his family for several generations have lived to an average age of 85 years. Mr. Benedict spends the greater part of the year, when he is not aboard his yacht, at his home in Greenwich, Conn. He has been more or less closely connected with the banking and brokerage business in this city since 1859, when he became a clerk in a stock broker's office. Seven years later he embarked in business for himself, he originated the Gold Exchange bank, which grew out of gold speculation during and after the civil war, and in later years he made the handling of gas stocks his specialty. Mr. Benedict was long a close personal friend of Grover Cleveland.

PROMPT SETTLEMENT January 24, 1914.

Mr. Charles E. Dickson, District Agent Northwestern Mutual Life Insurance Company, Jacksonville, Illinois:

Dear Sir: I beg to acknowledge receipt of check from your company in payment of claim under policies No. 357,775 and No. 860,237 for \$20,000 issued on the life of Charles A. Barnes, deceased.

I also wish to thank you for the prompt settlement made by your company of this claim.

Yours very truly, F. E. Farrell.

SURPRISE PARTY FOR REV. H. H. DEWITT

The Rev. H. H. DeWitt, pastor of the Second Baptist church, was given a surprise party Friday evening by a large number of members and friends of the church. The occasion was the birthday of Rev. Mr. DeWitt. The friends met at the residence of Albert Moore on South Kosciusko street and proceeded in a body to the home of their pastor, each bearing something in the way of refreshments or useful presents. The pastor and his wife were taken wholly unawares and the event in all respects was a most successful one. The surprise was planned by Mrs. Charles Sharpe and Mrs. Laura Lafayette.

WILL HAVE LIBRARY STUDENT.

In accordance with the practice of the Library school of the University of Illinois in sending the members of the Senior class to various libraries in the state for practice field work, the Jacksonville public library will assign one student who will come the first week in February and remain for a month of study and practice. The senior students are assigned for this work to but ten Illinois libraries and the selection of the public library here as one of the number reflects considerable credit on the management and standing of the Jacksonville institution.

TO GIVE BENEFIT.

Friends of George Sharpe who is quite ill have arranged to give a benefit performance for him at the Gen Theatre Wednesday of this week. A special musical program has been arranged and besides there will be six reels of pictures, and Managers Rees and Gorman are guaranteeing an excellent performance. The special program will be given by Miss Beulah Hopkins of St. Louis, Miss Virginia Baptist and Terrence Brennan of Jacksonville and Ossie Potts of Chicago.

PHYSICIANS TO VISIT PUBLIC SCHOOLS MONDAY

Examinations Will Be Made at School Buildings Instead of in Physicians' Offices—No New Cases Reported.

Doctors Gregory, Crouch, Dewey, Milligan, Stacy, Webster, Thompson, Norris Baxter, Duncan, Cole, Woltman, Bradley, Black, Hardesty, Ogram, Wakely, Wolfe, Adams, Foley, Galle, Reid, Bowe, and Hairgrove have consented to assist City Health Warden King, to examine the 2,221 students in the public and parochial schools. The examinations will take place Monday at 9 a. m. The experience of last week was not altogether satisfactory as the offices of the physicians were crowded with students for two or three days. By this latter plan it is hoped to be able to examine the pupils in an hour or more.

Dr. King in speaking of the recent examinations said last night: "I don't feel it exactly fair that all the work should be put on the shoulders of the physicians of the city and that some means should be taken by the board of education to have one or more practical nurses examine the children. So far there have been no more cases of small pox reported and only one or more diphtheria cases. It is hoped that the means taken by the physicians to stamp out what appeared to be a bad epidemic of diphtheria and small pox, will be successful. The private schools of the city will look after their own students and will be held responsible for the same."

ATTENTION MOTHERS!

If You Have or Know of a Delicate Child Read This Letter.

"My little daughter Louise, age 9 years, has always been delicate, anaemic, had no appetite and seemed listless, and we could not seem to find anything that would help her, until we were advised to give her Vinol. She started taking it six weeks ago and inside of two weeks she showed a marked improvement both in appetite, vim and looks. Being so well pleased with the results, I continued giving it to her, and words fail to express my gratitude, and faith in Vinol both as a blood maker and body builder. As my child was an anaemic for so long makes the reason all the stronger for me to recommend it to others in similar condition." Geo. E. Munro, Brooklyn, N. Y.

Vinol restores health and strength in conditions like this because in a natural manner it increases the appetite, tones up the digestive organs, enriches the blood and strengthens every organ of the body.

Every bottle of Vinol is guaranteed to give satisfaction or money refunded.—Lee P. Alcott, Druggist, Jacksonville, Ill.

Lubin---BATTLE OF SHILOH.

In Four Gigantic and Massive Parts.

A beautiful Story of Civil War Days, impressive and touching. Filled with scenes of battle and strife that quicken the heart and fascinate the eye. One of the bitterest and most stubbornly contested battles of the Civil War has been fought for the Lubin cameras. The original battle ground and contiguous localities upon which General Grant and General Johnston and their heroic followers worked out one of the bloodiest chapters in the history of our country have been utilized for the enactment of this thrilling drama of love and war. The Battle of Shiloh is said to be the most artistic and authentic reproduction of a historic event ever made in Motion Pictures and is illustrative of the astonishing progress the manufacturers of films have made. The Battle of Shiloh will be shown at

ILLINOIS WINS FROM HEDDING

FAST GAME WON BY LOCALS
SCORE 41 TO 33.

Speed Boys of Springfield Take Spirited Contest From Local Y. M. C. A. Team, Score 25 to 13—White Hall Defeats Chapin.

Illinois college basketball team won a fast and clean game Saturday afternoon from Hedding college of Abingdon, by a score of 41 to 33. This was the first time that the Illinois team has been together and they played a good consistent game, considering the practice the squad has had. In the first half the score was 17 to 16 in Illinois favor. Gary and Harmon were the chief point winners in the first half, Gary making five field baskets and Harmon 2. In the second half Atchison and Stewart who had been playing cautiously at guard, broke loose, Atchison scoring two points up to the time he was ousted for four personal fouls. Frisbie showed the best form yet this season, scoring two field goals and holding his opponent Nelson, scoreless. Pierce, who substituted for Atchison, seemed somewhat bewildered when he first went in but soon settled down to some commendable work.

Hedding college has a good team and with more practice ought to give a good account of themselves before the season ends. Capt. Young, the veteran guard of the visitors has been on the team for two years and has been under fire in two state tournaments. He is easily the star of the aggregation, and around him the entire team is built. Trevor played a consistent game making a total of ten points for his school. Case showed great skill in throwing fouls.

Next Saturday night Illinois will meet Carthage college at Carthage. Hedding FB FT TP

Springfield "Y" Victor.
The Speed Boys of the Springfield "Y" won a fast and interesting game of basketball from the Jacksonville "Y" last night, the score being 25 to 13. The first half of the game was better played, the score being 11 to 6 in Springfield's favor. The visitors have on their list of players Catlin, who is a member of the Millikin basketball team. He is an expert in throwing fouls and last night had fourteen to his credit and two field goals, making 18 out of 25 points the five won. Jacksonville used almost two teams, and more roughness characterized the last half. Frye won seven points by foul throwing and W. Boxell, also played a good game at forward. This is the second game between the teams this year, Springfield winning them both.

The following was the lineup: Springfield—Acker, rf; Head, lf; Leurs, c; Catlin, lg; Grossman, rg; Jacksonville—D. Boxell and P. Frye, rf; W. Boxell and Frye, lf; Morrison, c; McDavid, Seigel, lg; Maddox, rg.

Summary—Field baskets. Leurs, 1; Catlin 2; Grossman 2; D. Boxell 1; W. Boxell 1; foul throws, Catlin 14; Frye 7; W. Boxell 2.

Officials—Referee, Brown (Millikin); Umpire, Stewart (Illinois); Scorers, Farrell and Spitznagle; Timers, Livingston and Rayhill.

White Hall Defeats Chapin.
White Hall defeated Chapin in a fast game at Chapin Saturday night. The visitors clearly outplayed their opponents in the first half, winning that period by a score of 12 to 9.

In the second half Chapin played a better game and held the score down considerably. The first and second girls' teams of the Chapin high school played a curtain raiser which resulted in a score of 13 to 2 in favor of the first team. Next Friday night Waverly will play Chapin at Chapin.

The lineups in Saturday's game follow: White Hall—Baldwin, c; Selby and Campbell, forwards; Bridgewater and Roodhouse, guards; Chapin—Briggs, c; Antrobus and Anderson, forwards; Mathers and Taylor, guards. Vermillion of White Hall acted as referee.

GEORGE DARLEY IS INJURED BY JUMPING

George Darley of the Providence neighborhood is a patient at Passavant hospital, having suffered a severe injury to his intestines as the result of jumping out of a wagon. Mr. Darley had been to Franklin Friday afternoon and on returning home jumped out of the wagon. Shortly afterwards he was taken with severe pains. Dr. Metcalf was called and it was deemed advisable to bring him to the hospital, where he underwent an operation Saturday. His condition was favorable last night. His daughter who is a student here is at his bedside, also his other daughter, Mrs. Ellis Brainer of Springfield.

THE PURCHASE OF TAILORED APPAREL

is like any other purchase—it does not pay to skimp quality. There is no satisfaction in owning an inferior suit of clothes—no pride of possession. You know, and so does any one else familiar with clothes, that it possesses no marks of individuality.

Quality demands a fair purchase price. When a suit or overcoat is offered at a ridiculously low price, you may be assured that they are not clothes you would care to own; that however absurd the sum you pay, you are not receiving fair value for it.

We carry the finest grade of woollens obtainable, and we offer the most reasonable prices possible, quality considered.

HOODS AND SOCKETS READY FOR NEW STREET LIGHTING SYSTEM

Two Hundred Will Be Placed in Position As Soon As Switch Board Regulators Are Installed at City Light Plant.

A good sight to behold is a pile of two hundred new electric lamp hoods which occupy space in one of the rooms at the city building. In a room adjoining are an equal number of 100 and 200 watt Tungsten lamps. The sockets have all been fitted into the hoods and they are in readiness to be placed on the streets just as soon as the regulators which are to be used on the switch board at the municipal light plant arrive. Commissioner Brennan said yesterday that the regulators will certainly be here within two weeks and that in less than three weeks it is safe to promise that the two hundred hoods and lamps will be in position. Mr. Brennan and Mr. Knollenberg have made arrangements for a large force of city employees to take a hand in placing the hoods when the regulators are placed and working. They cannot be placed until the regulators are in readiness because the current which makes possible the use of the tungsten lamps will not be available until that time.

While the new generator which was recently ordered is designed for use in street lighting, the generator purchased several months ago for pumping was recently so changed that it can now be utilized on the lighting circuit. After the new generator is received, the one previously purchased will be utilized for pumping the Widenham & Danly wells.

FINE FEATHERS COMES MONDAY

In the two principal cities of the United States last season, it was said that the theatre yielded more successful productions than in any similar period during the past decade and for that reason the theatre going population of other centers are promised much that is good this year. Of all the pronounced "hits", however, the most powerful dramatic offering was "Fine Feathers," which H. H. Frazee produced in Chicago in August 1912, and kept current at his Cort Theatre there until the Xmas holidays. Following its run in the Western metropolis it was presented at the Astor Theatre, New York, and remained there for the balance of the season. That is the production which comes to the Grand Monday Jan. 26, and in which theatregoers will have an opportunity to see what is considered quite the most virile of all the plays written by Eugene Walter who has to his credit such successes as "Fool in Felt", "The Easiest Way", "The Wolf", and "The Trail of the Lonesome Pine."

FUNERAL NOTICE

POISONED BY HERRING.

Mrs. Anna Sloan of Decatur won her suit for \$500 against the F. W. Woolworth 5 and 10 cent store of Decatur. Mrs. Sloan charged that she bought some kippered herring at the store and it poisoned her.

POLICE RAID "MUSEUMS."

St. Louis, Mo., Jan. 24.—Raids on so-called "anatomical museums" were made by the police here today as a result of protests against such institutions at a public hearing last night. The raids were part of a campaign being waged here against advertising doctors.

GOOD SERVICE AWAITS ALL CUSTOMERS AT BOSTON STORE

Proprietor Takes Personal Interest in Guaranteeing Satisfactory Results in Buying There—A Successful Business.

In a city of this size the success of a merchant depends much upon "personality" in his business. That is, the merchant who succeeds must build up the business around himself and must so identify himself with it that his name and methods are inseparably linked with it. A realization of that fact has had much to do with the success of W. E. Boston who ranks high up in the list of Jacksonville business men. Mr. Boston is not sensational at all in his methods and as a matter of fact moves things along in a very quiet way. But the patrons of his store have through the years come to recognize the fact that he is intimately in touch with every part of the business he conducts at his grocery and meat market. He knows his customers personally. He knows the kind of goods they want and he knows therefore what and where to buy. So through the years the business of this store located at the corner of East College and Hardin avenues has grown and each year the proprietor can look back and know that he has done more business than for any preceding twelve months.

Whether or not you live in the east part of the city or county and thus possibly have occasion to pass the Boston store, it will pay you to go there. If it is inconvenient to visit the store personally make telephone inquiries and you will certainly find that uniform courtesy will be accorded and that your household needs can be economically and satisfactorily filled. The phone numbers are 100.

FINE FEATHERS MONDAY.

Direct from its Astor Theatre, New York, triumph, following a successful run of six months at his Cort Theatre, Chicago, H. H. Frazee will present here at the Grand Monday night "Fine Feathers," the most successful of all his productions with the metropolitan production intact. No play in recent years has aroused the theatre going public to so high an appreciation of the native drama than this virile story of American life and the struggle prevalent in nearly every home where the wife craves luxury and the husband is trying to fight off the graft by which he would be able to gratify her desires.

POULTRY SHOW CLOSURE.

Reports from the Decatur poultry show held the past week were in the S. C. Rhode Island Red class. In competition with 170 birds, 10 pens and 80 singles, "Foxy Grandpa" owned by Francis M. Doan was awarded first cock. Mr. Valiere, secretary and treasurer of the National S. C. R. I. club wrote that the quality of the show was good enough for any east or west and that competition in the S. C. Reds was unusually close. The meeting was well attended.

MUSIC AT GRACE CHURCH.

The choir at Grace church today will sing this morning an anthem, "Doth Not Wisdom Cry," by James Rogers and Henry Kirby who is supplying as bass for W. A. Gore will sing a solo. In the evening Miss Lena Hopper and Percy Jenkinson will sing "The Crucifix" by Faure and the choir will sing Gounod's "Send Out the Light."

IS SERIOUSLY ILL.

C. W. Rudisill of the Arcadia neighborhood was brought to Dr. Day's hospital yesterday. He was too weak to operate on but expects to undergo an operation, where he is physically able.

BUGGIES AT PUBLIC SALE.

Normal Broadwell held a public sale of buggies Saturday. Seven were sold which brought an average price of \$80. J. G. Cox was the auctioneer.

PASSAVANT MEETING.

The annual meeting of the trustees of Passavant hospital which was to have taken place last Friday evening will be held Monday evening at 7:30 o'clock. A large attendance is desired.

Charn Hughtett, daughter Laura and son Floyd, of LaSalle are in the city for a few days visit with Mr. Hughtett's parents, Mr. and Mrs. John Hughtett of North Church street.

GOVERNOR OFFERS REWARD.

Springfield, Ill., Jan. 24.—A reward of \$200 was offered today by Governor Dunne for the arrest and conviction of the murderer of Chas. Catalan at Chicago January 9th. The slayers of Catalan are thought to be the same men who killed the two Italian bankers at Chicago Thursday night.

EXAMINING BANK ACCOUNTS.

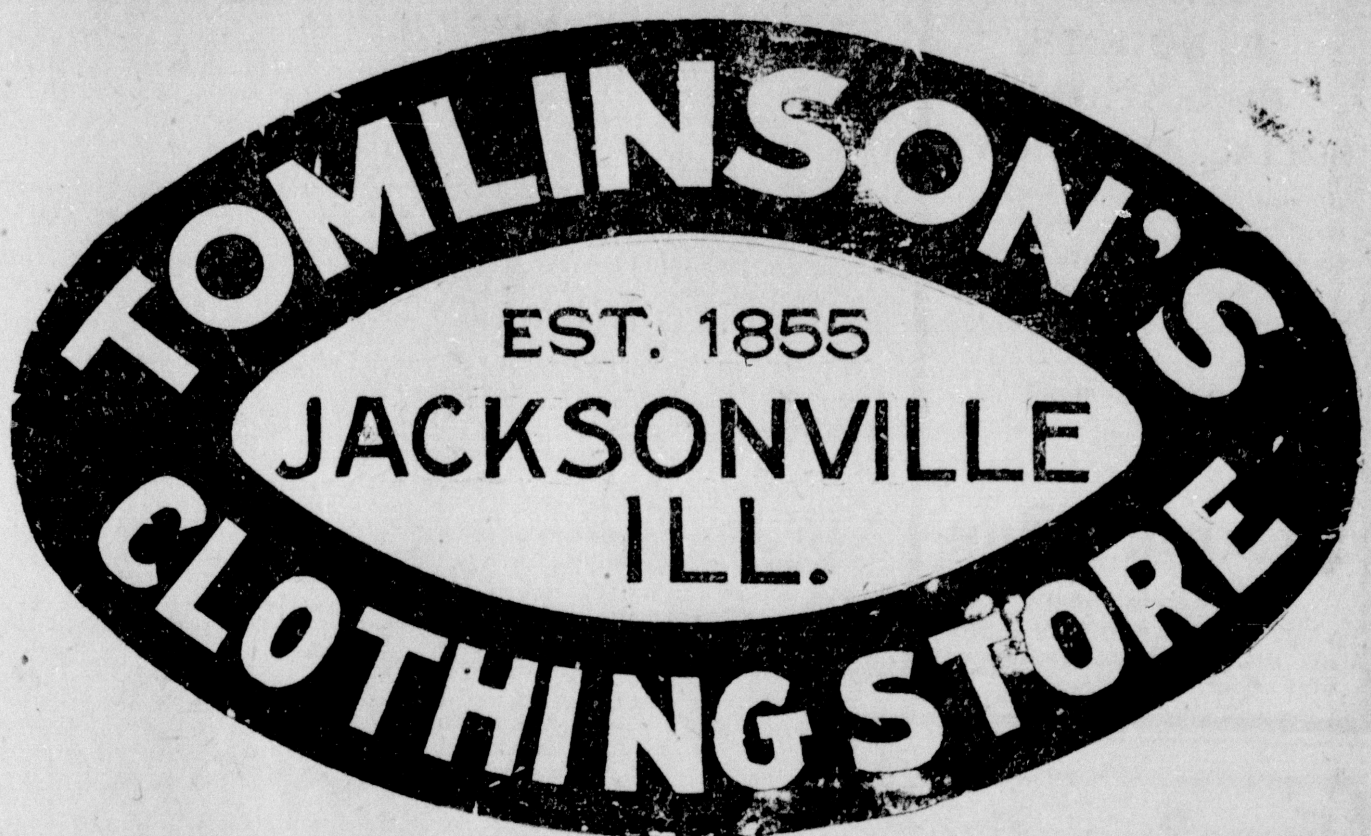

New York, Jan. 24.—District Attorney Whitman has been investigating into the bank accounts of Chas. F. Murphy, leader of Tammany hall and James E. Gaffney his political and business associate according to information that came from the district attorney's office today.

POLICEMAN ARRESTED.

Galesburg, Ill., Jan. 24.—Policeman C. J. Jackson was arrested today by John Carlson, a butcher, who on opening his store caught Jackson wrapping up a six pound roast. Jackson admitted he had been helping himself to choice cuts for fifteen weeks.

FARM LAND SOLD.

The 240 acres of land situated south of Franklin of the estate of William T. Luttrell was sold by master in chancery John F. Clark Saturday, which brought \$24,000. Mrs. Eliza A. Luttrell, the widow of Mr. Luttrell being the purchaser.

THE JACKSONVILLE JOURNAL

The time was when an unscrupulous merchant could advertise any sort of an offering at any ridiculous price and then suit himself about really furnishing the article if requests were made. That such a day has gone by however was recently forcibly indicated at Trenton, New Jersey. There a dealer in mens' furnishings or clothing put goods in his window with placards bearing the price at which they were offered and other figures indicating that real value was twice what was asked. The attention of the commercial organization in the town was called to the fact and the merchant was arrested and required to pay a stiff fine.

That the women of Quincy intend to take an interest in local affairs there was indicated recently by the fact that 6199 of them had their names placed on the poll books on registration day. Very soon Quincy is to vote upon the adoption of the commission form of government law. But the real reason for their interest is said to be the fact that a wet and dry battle is planned for the early spring. Judging from results elsewhere in Illinois since women have had the right to vote on the local option question the liquor interests of Quincy have reason for trembling. The Gem City has always had the name of consuming a vast amount of liquor of one kind or another and the residents there who are opposed to idry territory are finding some relief in the thought that Hannibal is not far away.

The recent action of Henry Ford, president of the Ford Automobile Co., whereby he increased the wages of the employees of his factory in sums large enough to use up ten million dollars yearly of his profits has caused a vast amount of newspaper comment. Mr. Ford has received a great deal of commendation and incidentally a lot of advertising.

The Chicago Tribune recently commented upon Mr. Ford's munificence and then went on to state that a week after the announcement of increased wages that the marriage license office in Detroit was literally besieged with people and that 75 such documents were issued within a short time. The Tribune then goes on to argue that the real reason that so many men are today unmarried is because they haven't large enough, or certain enough income to make them feel justified in taking such a step.

Life, the best of the funny papers has taken the incident as the basis for a cartoon on profit sharing which is nothing more or less than a picture of a Mormon Prophet who is walking along the street trailed by half a dozen of his wives.

"ABE MARTIN" ON ADVERTISING
In the February American Magazine, "Abe Martin," the Indiana philosopher, makes the following remarks on advertising:

"What's become of the old-time merchant that us 't set o' tufnful in dried apples an' a keg o' mackerel in front of his store an' then go 't sleep?"

Ever' feller that don't advertise haint a fool, but very few fools advertise.

"Folks are allus anxious 't see some buddy they've read so crazy 't see a clothes wringer or anything else under the same circumstances."

THE REVENUE FROM WHISKEY.
The American people drank 7,000,000 gallons of whiskey, smoked 4,-

090,300,000 cigars and puffed 8,711,000,000 cigarettes during the six months ended in December according to figures announced today by Commissioner Osborne of the Internal Revenue Bureau.

The revenue collected from distilled spirits amounted to \$85,862,812; the whiskey tax being \$16,142,854; tobacco, \$41,296,303; corporation tax, \$3,170,700; cigarettes, \$10,899,000, and cigars \$12,270,000.

The total collection of taxes for the six months totaled \$167,647,995, an increase of \$4,175,630 over the corresponding period for 1912. The income tax paid under the new law aggregated \$1,509. This tax did not have to be paid until March 1.

MR. SULLIVAN'S GROWING STRENGTH

Already there are said to be seven candidates for the U. S. senatorship on the democratic ticket and if that eminent statesman Lieutenant Gov. O'Hara should announce himself the list would be increased to eight. According to various newspapers the Lieutenant Governor has the matter seriously in mind and is very likely to announce himself at some very early date.

And speaking of the senatorship calls to mind the fact that one Roger C. Sullivan seems to be looming up very prominently on the political horizon. This statement does not mean that Mr. Sullivan has been hitherto unknown but refers simply to his seemingly greatly increased local popularity. The time was when the Sullivan men in Jacksonville and Morgan county were few and far between, or at any rate they were not very vociferous in announcing their friendliness to Ward the Chicago Gas magnate and astute party leader.

In these latter days however there seems to be a marked change in conditions and Mr. Sullivan's friends locally are increasing in number. Certain it is that in some quarters where a few years ago there was open denunciation for Mr. Sullivan now there are soft words. In other quarters where years and possibly months ago there was open and severe opposition now there is at least silence. All of which goes to show that it is no misnomer when Mr. Sullivan is referred to as an astute politician.

So far as Mr. Sullivan's senatorial aspirations are concerned it seems to be pretty well understood that he has the friendship of Gov. Dunne and it is also related that he enjoys a like political friendship with Mayor Harrison of Chicago. Nothing has recently happened to indicate that Mr. Sullivan is yet encountering the opposition of Secretary of State Bryan, which some time ago might have been counted upon as an obstacle in his political pathway.

Altogether if one may judge from appearances, locally, in a state wide and national way there have been a number of peace agreements and some old differences have probably been healed up temporarily at least. And speaking of peace agreements the suggestion made by Mr. Pace of Jerseyville, that all the candidates for the judgeship on the democratic ticket in this district get together and agree on a candidate for the short term does not seem to have met with a ready response.

Just a few days after Mr. Pace wrote the letters to the various candidates offering his peace suggestions he also sent to all the newspapers in this part of the country a sketch of the life and political career of Roger Sullivan and suggested that its publication would furnish good news matter and would doubtless also be pleasing to Mr. Sullivan. It is said that the letters about Mr. Sullivan following so closely upon the other letters and all from the same source, made some of the judicial candidates

view with suspicion the peace proposal.

While all this political activity is going on in the Democratic party, leaders of other parties are saying nothing. Let it be hoped that they are at least "sawing wood."

MISSIONARY RALLY WILL BE HELD NEXT WEEK.

Well Known Speakers are to Be Here Sunday and Monday.

Attention is again called to the great missionary rally to be held in this place next Sunday and Monday, February first and second. Eminent men are expected here and Sunday they will probably be heard in the greater part of the pulpits of the city.

These gatherings will be brim full of deepest interest and the great subject of obedience to the Lord's parting command will be discussed in its various bearings. We cannot be too much in earnest in this mighty work and the present is an opportune time to undertake it. People are beginning to see the genuine results of foreign missions and to take a greater interest in them than formerly.

Judged from the low standpoint of expense missions pay for themselves. Many of them good customers. Then too recall how nearly yellow fever has been stamped out since our nation took Cuba in hand. How cholera has been lessened since missionaries taught the exporters of rags from India to be more careful. How mighty for good is the work of the nation in the Philippines and what vast opportunities are now presented in China. Let these meetings be well attended and result in an increased interest in missions.

ARMY OF EMPLOYES FOR SUBWAY WORK

Chicago, Ill., Jan. 24.—Work for between 20,000 and 25,000 men will be provided this year, if the voters approve of the immediate initial subways, according to tabulations made today. Of this army of employed between 10,000 and 15,000—skilled professional men, union artisans and clerks, muckers and laborers in the underground borers—will be employed in the streets of Chicago. The other thousands will be in the mills, factories and offices which will simultaneously hum with activity when the construction work is fairly started. Under the plans for extending the initial subways into an eventual city-wide comprehensive system, with the millions which will be yearly added to Chicago's big traction fund, the working force will be practically continuous for years to come.

George Weston, the city's engineer on the Board of Supervising Traction Engineers, today produced reports of subway construction in Boston, on which to base the estimates of the thousands who will have work in Chicago when the city starts converting the traction funds now lying in various banks into a subway. The initial subways in Chicago, it is expected, would be divided into sections of not longer than half a mile. Work could go on night and day, as artificial light would be needed either time, and from several points in each contractor's section.

REDFIELD PRAISES U. S. MANUFACTURERS

SECRETARY ADDRESSES NEW HAVEN CHAMBER OF COMMERCE.

Declares Flood of Foreign Manufactures Which it was Predicted Would Swamp American Markets With Passage of New Tariff Has Not Materialized.

New Haven, Conn., Jan. 24.—An affirmative view of business was the key note of a speech Secretary Redfield made here today before the Chamber of Commerce. He praised American manufacturers for their ready readjustment to new conditions and declared that the flood of foreign manufactures which it was predicted would flood American markets with the passage of the new tariff had not materialized.

"Aye, but you say, look at the depression. Well, look at it," said Mr. Redfield. "Look at it sanely, without passion and without prejudice. What do you see? But before you answer let me ask a second question. Where are you looking? Get the horizon big enough, else your picture will be but partial and may mislead. Where then is trade depression found? In India, in Argentina, in Brazil, in Germany, in England. Where is it least? In America. Where is the rising tide from such depression as exists felt first and most? Here, in America. Leave aside the pitiful parables of the prophets of evil who for political purposes preach national pain. Look calmly at the truth. America suffers from no disaster. She is better off when the worst is said than her sister nations. From the bottom, which at most was not deep, she has already risen far and is rising. There was just cause for hesitation in that which has happened in the past, the reaction from the Balkan war, which had tied the purse strings of Europe and shut down its mills, was naturally reflected here in some small degree.

"It was perfectly proper that business men, whose output was affected more or less by the new tariff, should give thoughtful heed now to readjust themselves to it. They would have been foolish had they done otherwise. Frankly the men who dreaded tariff changes must have said, and are saying, that readjustments are over and the new is at its worst nothing like as bad as they feared and that at its best is helpful.

"Europe begins to see its way out of its deep depression, and last and best of all you know that sympathy with all that is finest and best in business life and with the highest ideals of our industrial activities is rampant at the seat of government. This is no longer the day of doubt but the hour of hope.

"Too much perhaps there has been the spirit on one side that 'what is, is wrong' and the assertion on the other hand that 'what is, is right.' Big Business has often failed to see that its methods have aroused a just popular resentment and that many of its past ideals and purposes were impossible and tolerable in a democracy. The men of financial and corporate power have had to learn that the weal of the whole people is a supreme law to which their private interests must obediently bow. The business conscience has itself awakened to a realization of wrongs committed in the name and on the alleged behalf of commerce and industry and will tolerate those wrongs no more. Even the men of night in finance are becoming men of light and leading in the neces-

sary readjustments that are pending. The business conscientiousness is becoming less individual and more social.

"I am not here therefore on any errand to arouse the business conscience or to raise the banner of revolt against business procedure, certainly not to denounce or to destroy. The sense of what is fit, the knowledge of what is due to their own honor, is now so keenly alive among the business community that when the achievements of our recent discussions shall have been finally wrought into law they will be, in my belief, not found wanting in willingness and power to take up such further work as may remain."

To Secretary Bryan, he asserted, belongs high credit for his co-operation with the Department of Commerce in smoothing the way to business progress in foreign markets. Mr. Redfield spoke at length on new methods adopted by the department to bring business men in closer touch with both domestic and foreign trade opportunities.

THE LAST CUT ON WINTER COATS, WINTER SUITS AND WINTER MILLINERY AT HERMAN'S.

CONSERVATORY NOTES.

Mrs. Wilson sang at the president's reception on Friday evening, Jan. 23, an Ave Maria by Percy Kahn, Mr. Kritch playing a violin obligato and Mr. Munger the piano accompaniment. She was enthusiastically encouraged and responded with a song by Frances Alliston, also with violin obligato.

A student's recital will be given next Wednesday afternoon, Jan. 28, at 4 o'clock in Recital Hall.

Miss Jensen has been engaged to appear as violin soloist at the Whitney Opera House, Chicago, early in February.

The date of the midwinter concert has been placed on Friday, February 20th. Mendelssohn's "Elijah" will be given with Mrs. Genevieve Clark Wilson, Mrs. Julian Hall, Mr. Robert Quait, Jr., and Mr. Robert Hockenull as soloists.

Miss Bertha Parkin of Waverly, a former student of the Conservatory made a visit to the hall on Friday afternoon.

Mrs. Harry Worthington, of Evanson, is visiting with her daughter Dorothy at the hall.

Barnes in his company, which is one of the ten large life companies and the largest writing life, accident and health insurance, having insured more lives than any company in the world.

IMPORTANT MEETING TO BE HELD AT ANTIOCH.

Decision Will Be Reached as to Future of the Church Organization.

Next Thursday, Jan. 29th, at 11:00 a. m., there is to be an important meeting at Antioch church. The first number on the program is to be a sermon and that is to be followed by a conference regarding the future of the church. All persons in the vicinity are requested to bring well filled lunch baskets and those from a distance will be entertained.

For some time services have not been maintained at Antioch and it is the earnest desire of those interested in the welfare of the church to consider the future of the society. All members especially and all persons, whether members or not, are urged to be present and take a part in the discussions and deliberations. It would seem that there is room for a church there and it is hoped that the result of this meeting will be a solution of the question.

HOODS AND SOCKETS READY FOR NEW STREET LIGHTING SYSTEM

Two Hundred Will Be Placed in Position As Soon As Switch Board Regulators Are Installed at City Light Plant.

A good sight to behold is a pile of two hundred new electric lamp hoods which occupy space in one of the rooms at the city building. In a room adjoining are an equal number of 100 and 200 watt Tungsten lamps. The sockets have all been fitted into the hoods and they are in readiness to be placed on the streets just as soon as the regulators which are to be used on the switch board at the municipal light plant arrive. Commissioner Brennan said yesterday that the regulators will certainly be here within two weeks and that in less than three weeks it is safe to promise that the two hundred hoods and lamps will be in position. Mr. Brennan and Mr. Knollenberg have made arrangements for a large force of city employees to take a hand in placing the hoods when the regulators are placed and working. They cannot be placed until the regulators are in readiness because the current which makes possible the use of the tungsten lamps will not be available until that time.

While the new generator which was recently ordered is designed for use in street lighting, the generator purchased several months ago for pumping was recently so changed that it can now be utilized on the lighting circuit. After the new generator is received, the one previously purchased will be utilized for pumping the Widenham & Daub wells.

Unless there are some unexpected delays there will be within three weeks a big tungsten lamp at every street intersection where there is now an old arc hood and at a number of places in addition. Then it is the intention to place additional lights as funds are available.

FINE FEATHERS COMES MONDAY

In the two principal cities of the United States last season, it was said that the theatre yielded more successful productions than in any similar period during the past decade and for that reason the theatre going population of other centers are promised much that is good this year. Of all the pronounced "hits", however, the most powerful dramatic offering was "Fine Feathers," which H. H. Frazee produced in Chicago in August 1912, and kept current at his Cort Theatre there until the Xmas holidays. Following its run in the Western metropolis it was presented at the Astor Theatre, New York, and remained there for the balance of the season. That is the production which comes to the Grand Monday Jan. 26, and in which the theatregoers will have an opportunity to see what is considered quite the most virile of all the plays written by Eugene Walter who has to his credit such successes as "Paid in Full", "The Eastward Way", "The Wolf", and "The Trail of the Lonesome Pine."

FUNERAL NOTICE

Funeral services for Miss Isola DeCastro will be held from the late residence, 615 W. Lafayette avenue, Monday afternoon at 2:30 o'clock. Interment will be made in Diamond Grove cemetery. A former notice that the funeral was to be held at Northminster church and that burial was to be in Jacksonville cemetery was in error.

PASSAVANT NOTES.

Mrs. Howard Otts of Roodhouse is at Passavant hospital assisting in caring for Miss Mabel Sanderson. Miss Lulu Field a former nurse at Passavant is visiting with friends in the city.

Mrs. Henry Myers of Bluffs Mrs. Charles Callaway of Tallula were visitors at the hospital yesterday.

Miss Beulah Hart, a nurse at the hospital is visiting in Beardstown.

PROMOTIONS POSTPONED.

Monday was to have been promotion day at the high school but on account of the medical examinations on that day, the promotions will be made Tuesday. Supt. W. A. Gore, who has been detained at home because of measles in his family, expects to take up his duties at the high school the first of the week.

OLD GENERATOR CAUSES TROUBLE.

One of the old generators at the municipal light plant has been out of commission for several days and must undergo repairs if it is to be used again. Mr. Brennan said yesterday that this accounted for there being fewer than usual street arcs in service just now.

SELL RESIDENCE AT AUCTION.

FINE FEATHERS MONDAY.

Direct from its Astor Theatre, New York, triumph, following a successful run of six months at his Cort Theatre, Chicago, H. H. Frazee will present here at the Grand Monday night "Fine Feathers," the most successful of all his productions with the metropolitan production intact. No play in recent years has aroused the theatre going public to so high an appreciation of the native drama than this virile story of American life and the struggle prevalent in nearly every home where the wife craves luxury and the husband is trying to fight off the graft by which he would be able to gratify her desires.

POULTRY SHOW CLOSURE.

Reports from the Decatur poultry show held the past week were in the S. C. Rhode Island Red class. In competition with 170 birds, 10 pens and 80 singles, "Foxy Grandpa" owned by Francis M. Doan was awarded first cock. Mr. Valiere, secretary and treasurer of the National S. C. R. I. club wrote that the quality of the show was good enough for any east or west and that competition in the S. C. Reds was unusually close. The meeting was well attended.

JACKSONVILLE JOURNAL CO.
THE JACKSONVILLE JOURNAL

The time was when an unscrupulous merchant could advertise any sort of an offering at any ridiculous price and then suit himself about really furnishing the article if requests were made. That such a day has gone by however was recently forcibly indicated at Trenton, New Jersey. There a dealer in men's furnishings or clothing put goods in his window with placards bearing the price at which they were offered and other figures indicating that real value was twice what was asked. The attention of the commercial organization in the town was called to the fact and the merchant was arrested and required to pay a stiff fine.

That the women of Quincy intend to take an interest in local affairs there was indicated recently by the fact that 6299 of them had their names placed on the poll books on registration day. Very soon Quincy is to vote upon the adoption of the commission form of government law. But the real reason for their interest is said to be the fact that a wet and dry battle is planned for the early spring. Judging from results elsewhere in Illinois since women have had the right to vote on the local option question the liquor interests of Quincy have reason for trembling. The Gem City has always had the name of consuming a vast amount of liquor of one kind or another and the residents there who are opposed to dry territory are finding some relief in the thought that Hannibal is not far away.

The recent action of Henry Ford, president of the Ford Automobile Co., whereby he increased the wages of the employees of his factory in sums large enough to use up ten million dollars yearly of his profits has caused a vast amount of newspaper comment. Mr. Ford has received a great deal of commendation and incidentally a lot of advertising.

The Chicago Tribune recently commented upon Mr. Ford's munificence and then went on to state that a week after the announcement of increased wages that the marriage license office in Detroit was literally besieged with people and that 75 such documents were issued within a short time. The Tribune then goes on to argue that the real reason that so many men are today unmarried is because they haven't large enough, or certain enough income to make them feel justified in taking such a step.

Life, the best of the funny papers has taken the incident as the basis for a cartoon on profit sharing which is nothing more or less than a picture of a Mormon Prophet who is walking along the street trailed by half a dozen of his wives.

"ABE MARTIN" ON ADVERTISING
In the February American Magazine, "Abe Martin," the Indiana philosopher, makes the following remarks on advertising:

"What's become of the old-time merchant that us 't set o' tubful o' dried apples an' a keg o' mackerel in front o' his store an' then go 't sleep?"

Ever' feller that don't advertise hain't a fool, but very few fools advertise.

"Folks are allus anxious 't see some buddy they've read so much about, an' they'd be jist as crazy 't see a clothes wringer or anything else under the same circumstances."

THE REVENUE FROM WHISKY.
The American people drank 7,000,000 gallons of whiskey, smoked 4-

990,300,000 cigars and puffed 8,711,000,000 cigarettes during the six months ended in December according to figures announced today by Commissioner Osborne of the Internal Revenue Bureau.

The revenue collected from distilled spirits amounted to \$85,862,812, the whiskey tax being \$16,142,854; tobacco, \$41,296,503; corporation tax, \$3,170,700; cigarettes, \$10,899,000, and cigars \$12,270,000.

The total collection of taxes for the six months totaled \$167,647,905, an increase of \$1,175,630 over the corresponding period for 1912. The income tax paid under the new law aggregated \$1,509. This tax did not have to be paid until March 1.

MR. SULLIVAN'S
GROWING STRENGTH
Already there are said to be seven candidates for the U. S. senatorship on the democratic ticket and if that eminent statesman Lieutenant Gov. O'Hara should announce himself the list would be increased to eight. According to various newspapers the Lieutenant Governor has the matter seriously in mind and is very likely to announce himself at some very early date.

And speaking of the senatorship calls to mind the fact that one Roger C. Sullivan seems to be looming up very prominently on the political horizon. This statement does not mean that Mr. Sullivan has been hitherto unknown but refers simply to his seemingly greatly increased local popularity. The time was when the Sullivan men in Jacksonville and Morgan county were few and far between, or at any rate they were not very vociferous in announcing their friendliness toward the Chicago Gas magnate and astute party leader.

In these latter days however there seems to be a marked change in conditions and Mr. Sullivan's friends locally are increasing in number. Certain it is that in some quarters where a few years ago there was open denunciation for Mr. Sullivan now there are soft words. In other quarters where years and possibly months ago there was open and severe opposition now there is at least silence. All of which goes to show that it is no misnomer when Mr. Sullivan is referred to as an astute politician.

So far as Mr. Sullivan's senatorial aspirations are concerned it seems to be pretty well understood that he has the friendship of Gov. Dunne and it is also related that he enjoys a like political friendship with Mayor Harrison of Chicago. Nothing has recently happened to indicate that Mr. Sullivan is encountering the opposition of Secretary of State Bryan, which some time ago might have been counted upon as an obstacle in his political pathway.

Altogether if one may judge from appearances, locally, in a state wide and national way there have been a number of peace agreements and some old differences have probably been healed up temporarily at least. And speaking of peace agreements the suggestion made by Mr. Pare of Jerseyville, that all the candidates for the judgeship on the democratic ticket in this district get together and agree upon a candidate for the short term does not seem to have met with a ready response. Just a few days after Mr. Pare wrote the letters to the various candidates offering his peace suggestions he also sent to all the newspapers in this part of the country a sketch of the life and political career of Roger Sullivan and suggested that its publication would furnish good news matter and would doubtless also be pleasing to Mr. Sullivan. It is said that the letters about Mr. Sullivan following so closely upon the other letters and all from the same source, made some of the judicial candidates

view with suspicion the peace proposal.

While all this political activity is going on in the Democratic party, leaders of other parties are saying nothing. Let it be hoped that they are at least "sawing wood."

MISSIONARY RALLY WILL BE HELD NEXT WEEK.

Well Known Speakers are to be Here Sunday and Monday.

Attention is again called to the great missionary rally to be held in this place next Sunday and Monday, February first and second. Eminent men are expected here and Sunday they will probably be heard in the greater part of the pulpits of the city.

These gatherings will be brim full of deepest interest and the great subject of obedience to the Lord's parting command will be discussed in its various bearings. We cannot be too much in earnest in this mighty work and the present is an opportune time to undertake it. People are beginning to see the genuine results of foreign missions and to take a greater interest in them than formerly.

Judged from the low standpoint of expense missions pay for they bring nations into civilization and make many of them good customers. They too recall how nearly yellow fever has been stamped out since our nation took Cuba in hand. How cholera has been lessened since missionaries taught the exporters of rags from India to be more careful. How mighty for good is the work of the nation in the Philippines and what vast opportunities are now presented in China. Let these meetings be well attended and result in an increased interest in missions.

ARMY OF EMPLOYEES
FOR SUBWAY WORK

Chicago, Ill., Jan. 24.—(Work for between 20,000 and 25,000 men will be provided this year, if the voters approve of the immediate initial subway, according to tabulations made today. Of this army of employed between 10,000 and 15,000—skilled professional men, union artists and clerks, muckers and laborers in the underground bore—will be employed in the streets of Chicago. The other thousands will be in the mills, factories and offices which will simultaneously hum with activity when the construction work is fairly started. Under the plans for extending the initial subways into an eventual city-wide comprehensive system, with the millions which will be yearly added to Chicago's big traction fund, the working force will be practically continuous for years to come.

George Weston, the city's engineer on the Board of Supervising Traction Engineers, today produced reports of which to base the estimates of the thousands who will have work in Chicago when the city starts converting the traction funds now lying in various banks into a subway. The initial subways in Chicago, it is expected, would be divided into sections of not longer than half a mile. Work could go on night and day, as artificial light would be needed either time, and from several points in each contractor's section.

REDFIELD PRAISES U. S. MANUFACTURERS

SECRETARY ADDRESSES NEW HAVEN CHAMBER OF COMMERCE.

Declares Flood of Foreign Manufactures Which it was Predicted Would Swamp American Markets With Passage of New Tariff Has Not Materialized.

New Haven, Conn., Jan. 24.—An affirmative view of business was the key note of a speech Secretary Redfield made here today before the Chamber of Commerce. He praised American manufacturers for their ready readjustment to new conditions and declared that the flood of foreign manufactures which it was predicted would flood American markets with the passage of the new tariff had not materialized.

"Aye, but you say, look at the depression. Well, look at it," said Mr. Redfield. "Look at it sanely, without passion and without prejudice. What do you see? But before you answer let me ask a second question. Where are you looking? Get the horizon big enough, else your picture will be but partial and may mislead. Where then is trade depression found? In India, in Argentina, in Brazil, in Germany, in England. Where is it least? In America. Where is the rising tide from such depression as exists felt first and most? Here, in America. Leave aside the pitiful parables of the prophets of evil who for political purposes preach national pain. Look calmly at the truth. America suffers from no disaster. She is better off when the word is said than her sister nations. From the bottom, which at most was not deep, she has already risen far and is rising. There was just cause for hesitation in that which has happened in the past, the reaction from the Balkan war, which had tied the purse strings of Europe and shut down its mills, was naturally reflected here in some small degree.

"It was perfectly proper that business men, whose output was affected more or less by the new tariff, should give thoughtful heed now to other hand that 'what is, is right.' Big Business has often failed to see that its methods have aroused a just popular resentment and that many of its past ideals and purposes were impossible and tolerable in a democracy. The men of financial and corporate power have had to learn that the weal of the whole people is a supreme law to which their private interests must obediently bow. The business conscience has itself awakened to a realization of wrongs committed in the name and on the alleged behalf of commerce and industry and will tolerate those wrongs no more. Even the men of might in finance are becoming men of light and leading in the necessary readjustments that are pending.

The business conscientiousness is becoming less individual and more social. "I am not here therefore on any errand to arouse the business conscience or to raise the banner of revolt against business procedure, certainly not to denounce or to destroy. The sense of what is fit, the knowledge of what is due to their own honor, is now so keenly alive among the business community that when the achievements of our recent discussions shall have been finally wrought into law they will be, in my belief, not found wanting in willingness and power to take up such further work as may remain."

To Secretary Bryan, he asserted, belongs high credit for his co-operation with the Department of Commerce in smoothing the way to business progress in foreign markets. Mr. Redfield spoke at length on new methods adopted by the department to bring business men in closer touch with both domestic and foreign trade opportunities.

THE LAST CUT ON WINTER COATS, WINTER SUITS AND WINTER MILLINERY AT HERMAN'S.

CONSERVATORY NOTES.

Mrs. Wilson sang at the president's reception on Friday evening, Jan. 23, an Ave Maria by Percy Kahn, Mr. Kitch playing a violin obligato and Mr. Munger the piano accompaniment. She was enthusiastically encouraged and responded with a song by Frances Alltison, also with violin obligato.

A student's recital will be given next Wednesday afternoon, Jan. 28, at 4 o'clock in Recital Hall.

Miss Jensen has been engaged to appear as violin soloist at the Whitney Opera House, Chicago, early in February.

The date of the midwinter concert has been placed on Friday, February 20th. Mendelssohn's "Elijah" will be given with Mrs. Genevieve Clark Wilson, Mrs. Julian Hall, Mr. Robert Quait, Jr., and Mr. Robert Hocken-hall as soloists.

Mrs. Bertha Parkin of Waverly, a former student of the Conservatory made a visit to the hall on Friday afternoon.

Mrs. Harry Worthington, of Evans-ton, is visiting with her daughter Dorothy at the hall.

Charles H. Ward, District Agent of the Travelers' Insurance Company of Hartford, Conn., yesterday paid to F. E. Farrell the amount of two life policies held by the late Charles A. Barnes in his company, which is one of the ten large life companies and the largest writing life, accident and health insurance, having insured more lives than any company in the world.

IMPORTANT MEETING TO BE HELD AT ANTIOCH.

Decision Will Be Reached as to Future of the Church Organization.

Next Thursday, Jan. 29th, at 11:00 a. m. there is to be an important meeting at Antioch church. The first number on the program is to be a sermon and that is to be followed by a conference regarding the future of the church. All persons in the vicinity are requested to bring well filled lunch baskets and those from a distance will be entertained.

For some time services have not been maintained at Antioch and it is the earnest desire of those interested in the welfare of the church to consider the future of the society. All members especially and all persons, whether members or not, are urged to be present and take a part in the discussions and deliberations. It would seem that there is room for a church there and it is hoped that the result of this meeting will be a solution of the question.

The worth of family photos increases as the years pass. Have a picture taken soon. Your family will appreciate it both now and later.

FEDERAL LEAGUE MAGNATES ISSUE OPTIMISTIC REPORTS

Report That 83 Players of the 127 Signed Are Major Leaguers—Other Sporting News.

Chicago, Jan. 24.—Magnates of the Federal league, after two secret committee sessions today, issued two optimistic reports—one that 127 players had been signed, 83 of whom were major leaguers and the other that the construction of all the stands would be under way next week.

Among the 83 big leaguers are Rollie Zeider of the New York Americans, who, it was announced, signed a contract last night to play with Tinker's Chicagoans, and William Bradley of the Toronto International league team who signed to manage the Toronto Federals.

Zeider accepted the Federal terms last night after Arthur Irwin, the Yankee's representative, had declined to promise him a \$5,000 salary and a chance at playing third base. Bradley gained fame as an infielder with Cleveland.

Everybody concerned denied a widely circulated report that the St. Paul American association team would be purchased by Weeghman and transferred to Chicago and play on the North Side grounds leased for the federals. Weeghman said he would stand by the Federal league.

NEW YORK, Jan. 24.—Frank Farrell, president of the New York Americans said he would ignore Russell Ford, his former star pitcher, who has jumped to the Federal league, but says he will fight to the limit for King Cole, the former Cub, who was drafted by the Yankees from the Columbus club.

Farrell would not say in what manner he would fight for Cole. He admitted he could do nothing until Cole appeared in a Federal uniform. "I will say, however, that Cole is my property; I invested money in him and I will go the limit to get this man."

URBANA, Ill., Jan. 24.—Baseball games in the western conference will be peaceful if the new rules of the National Collegiate Athletic association made public today are adopted. The rules provide:

1. The catcher shall not, during actual play, speak at all to the batsman except where the occasion requires a bona fide word of caution and in speaking to the pitcher, the catcher must not use words reflecting or calculating the reflect on the batsman or any other member of the opposing team.

2. No members of either team shall call or shout during the game to any member of the opposing side, except to caution against some danger, nor behave in any unseemly manner.

3. There shall be no oral coaching from the bench.

4. The so-called encouragement of the pitcher from the outfield shall be stopped or at least minimized.

5. The umpire shall warn a player for an infraction of the rules and then excluded him from the game.

6. The students of the home team must not cheer in any such manner as to "rattle" the opposing team.

The conference board will not hold a meeting until June and it was considered unlikely that any action on the rules would be taken to affect the 1914 season.

PHILADELPHIA, Pa., Jan. 24.—Governor Tener as president of the National league; John A. Heydler, secretary and D. LeRoy Reeves, baseball secretary to the governor, held a three hours' conference here today. The question of umpires, the forthcoming schedule, the spring meeting of the league and the reception to be tendered to the world touring baseball players in New York were among the things considered.

Mr. Heydler said he was in daily receipt of signed contracts of players from the clubs and added that the Federal league was making little headway in signing National league players.

QUICK RELIEF FOR RHEUMATISM.

George W. Keon, Lawton, Mich., says: "Dr. Detchon's Relief for Rheumatism has given my wife wonderful benefit for rheumatism. She could not lift hand or foot, had to be lifted for two months. She began the use of the remedy and improved rapidly. On Monday she could not move and on Wednesday she got up, dressed herself and walked out for breakfast." Sold by L. P. Alcott, druggist—Adv.

NOTES FROM THE LABOR WORLD.

Rhode Island gained 2,685 wage earners in 1913.

The number of unemployed in Berlin is estimated at 100,000.

Cincinnati carpenters demand an increase of from 50 cents to 60 cents an hour.

The new wage scale for plasterers in Houston, Texas, ranges from \$6 to \$7 a day.

Eight hundred and thirty new members were initiated into the Order of Railroad Telegraphers in November.

More than 20,000 building mechanics in Philadelphia started the new year with increases in wages.

The city council of Kingston, Ont., has decided to put the nine hour day provision in all civic contracts hereafter.

The supreme court of Oregon has decided that the eight hour law passed by the legislature applies to all state employees.

The new wage scale for structural iron workers in Indianapolis is now 68 cents an hour, an increase of 3 cents over the old scale.

An agreement has been reached whereby eight hours will constitute a day's work for carpenters in Montreal after Jan. 1 of this year.

The Bricklayers, Masons and Plasterers' union of Hagerstown, Md., has put in a demand for a wage scale of 50 cents an hour, effective April 1.

The adoption of a pension system was recently submitted to the membership of the Bricklayers, Masons and Plasterers' international union and has been carried by a substantial majority.

The total membership of the American Federation of Labor is now estimated at 2,054,326, which is an increase of about 300,000 for the year 1913. The receipts of the organization for the year aggregated a quarter of a million dollars.

A recent report of the Canadian department of labor shows that the number of strikes in the dominion during the twelve years ending with 1912 was 1,319, or an average of 110 a year. The employees concerned in these strikes numbered 319,880.

Printers in Vancouver, B. C., have decided to work only five days a week in order that the members of the typographical union who are out of employment may have an opportunity to earn sufficient money to provide for their families.

The senate committee on education and labor will shortly begin public hearings on the Kenyon anti-child labor and eight hour for women bills. These measures have been before congress for many years without affirmative action by either house. They strike at the evils of child labor and overwork for women through the interstate commerce clause of the constitution.

The International Brotherhood of Electrical Workers have adopted a new constitution by a referendum vote ratifying the action taken at the international convention in Boston last year. The new constitution admits women to membership under full rights and establishes two branches, one for women, to include telephone operators and shop hands, and the other for men workers in all branches of the trade.

COLLEGE OF MUSIC.

At present we are all busy winding up the work of the first semester and planning for the new one, which will begin Feb. 3. Registration day is Monday, February 2.

Miss McKay's recital passed off very successfully last Monday evening.

Miss Hay organized a new Faellon class about a week ago, and has several applicants for another new one.

The Thursday afternoon recital was of unusual merit this week, the students showing splendid progress since their last appearance.

Miss Beebe sang at the installation of officers at the Eastern Star Thursday evening. Miss Ethel Kloethe was at the piano.

As was announced last week, the recital by the Messrs. Swarthout will take place Monday evening, Jan. 26, at eight o'clock in Music hall. The public will be welcomed.

We were made very happy by the receipt of a letter from Dr. Clarence Eddy, commending our pipe organ very highly. Dr. Eddy also sent us a large autographed photograph of himself to hang in our college of music "Hall of Fame."

SEVEN TIMES ELECTED TO OFFICE OF MAYOR.

J. P. de Mattos, Former Jacksonville Citizen Is Honored by People of Bellingham, Washington.

Through the courtesy of J. P. de Mattos the Journal is in receipt of a copy of the Bellingham Journal Progressive, a paper published in the state of Washington. The principal features of the number mentioned in three addresses by J. P. de Mattos on assuming the office of mayor of the city, an office to which he had been elected six times before during his residence of thirty years in that place. It seems that things had been going rather badly, a man from Utah had secured control of certain papers and they had done nothing for the good according to Mr. deMattos and he let it be plainly known that he meant to look after things as a genuine reformer.

Editorially the paper speaks in terms of great praise of the gentleman. Many elderly persons will remember "Jimmy" when he lived here and will be pleased to learn of his success and standing in the community in which he lives.

HIGH GRADE COWS THE KIND THAT BRING BEST RESULTS

Dairy Specialist Shows That Average Animals are Expensive for Owner—The Proper Ration for Cows.

There is an increasing interest these days in cows in Morgan county and farmers are coming into a fuller realization of how much money there really is in dairying and what a good thing this class of animal husbandry may be for their farms. Men who pay particular attention to the industry are continually impressed with desirability of keeping high grade cows. They argue that a good cow eats more than a low grade one and produces vastly more. A specialist on dairying recently prepared the following article on cows and rations:

"The trouble with the world today is that too many people are satisfied with doing average things. We have always had too many average preachers, average doctors and average farmers. We have raised too many average crops. Our cows have been average cows, producing an average yield per year.

"But people are fast coming to see that traveling on the dead line of averages is the slowest possible way to make progress. 'Get above the average' is the cry of the hour. 'If you think you are but an average man,' cries the world, 'specialize—get above the average in at least one particular and you will be paid well for it.'

"Did you ever stop to think what it would mean to you in actual dollars and cents to raise the 'average' of your cows? Suppose you have a cow that brings you in an average income of let us say, \$300 a year. By taking particular care of the cow and increasing her yield, suppose she brings you a return of \$400. Don't you see what your income from that cow has been increased one-third? If you could increase the yield of three cows in the same proportion the result would be the same as if you had actually purchased another cow that you didn't have to feed or pay for. It will mean much to you in cold cash to look well into the subject of increasing the average. It means a larger income from the same investment, or the same income from a smaller investment. How to increase a cow's efficiency is a subject that is well worth your while to investigate.

"Get your cows above the average. And then keep them there. If your herd is large, even a very small percentage of increase means a considerable addition to your bank account. If you depend upon cows for only a small part of your income, all the more reason why you should help that part to become as large as possible.

Calculations of Rations.—Wolff's standard for a cow of 1,000 pounds calls for 2.5 pounds of protein, 12.5 pounds of carbohydrates and 0.4 pounds of fat, which would furnish 29,500 calories of heat. From the table showing the amounts of digestible nutrients we find that 100 pounds of clover hay furnish 8.47 pounds of dry matter, 6.58 pounds of protein, 35.35 pounds of carbohydrates and 1.66 pounds of fat, equivalent to a fuel value of 81,995 calories. Twelve pounds of alfalfa furnish 10.16 pounds of dry matter, 6.70 pounds of protein, 34.24 pounds of carbohydrates and 1.27 pounds of fat, equivalent to a fuel value of 71,199 calories. In the same way the amounts furnished by 20 pounds of corn silage, 4 pounds of bran and 4 pounds of wheat are found.

"This ration it would seem, contains somewhat more carbohydrates and fat than the standard calls for, but is close enough to the standard for practical purposes. The calculation may be considerably simplified by considering only the protein and the fuel value without impairing accuracy. For example, suppose the farmer feeds his cows dry corn fodder (not stover), good timothy hay (herd's grass), and a grain mixture composed of equal parts of corn meal, wheat bran, and gluten meal. A ration might be made from these as follows:

Rations for Cows Daily.

Ration	Dry matter	Protein	Fuel value
10 lbs. tim. hay.	8.47	0.39	9,273
10 lb. dry corn fod.	5.78	.25	7,155
4 lbs. corn meal.	3.40	.28	5,921
4 lbs. wheat bran.	3.54	.48	4,446
4 lbs. gluten meal	3.62	1.02	6,797
Total	25.02	2.33	33,592

"This ration is higher than the standard in fuel value owing to richness of the materials in carbohydrates and fat, and slightly lower in protein. The substitution of one pound of corn meal would give 0.21 pounds more protein, which would make the ration contain 2.54 pounds of protein."

PUBLIC SALES.

Tuesday, Jan. 27th, at ten o'clock a. m., W. F. Carroll will sell on the John German farm seven miles southwest of Jacksonville five good horses, two extra good cows, 13 shoats, a large lot of farm implements, 50 shocks of corn, 50 shocks of fodder, stack of straw and household goods.

Will Interest Feeders.

In this space from week to week feeders of cattle and hogs, and for that matter of all farm animals, will find some very valuable matter. Charles Wood, who during twenty years has conducted many experiments in feeding, has reserved the space to tell the public generally about the method he has found the best.

Mr. Wood's plan for getting best results is by the use of his improved grain softener and of his recently invented stover rack and troughs. The two, used in conjunction, double the nutriment value in corn and produce results which are guaranteed.

The mere softening of the grain which was the first method used was found to furnish a food that was too rich and the syrup was also too thick. The method now adopted overcomes these difficulties and produces the desired results.

Here are the results which this method will produce and Mr. Wood is ready to guarantee the figures:

1 bushel of No. 2 corn will produce 20-lbs. pork; 12-lbs. beef.
1 bushel of No. 3 corn will produce 18-lbs. pork; 10-lbs. beef.
1 bushel of No. 4 corn will produce 16-lbs. pork; 9-lbs. beef.

Feeders will find the use of this method the surest way to make dollars. Watch this space for further facts on this subject.

Good Time Now For Blood Health

Energies Are More Keen
and Respond Quickly
to Help.

If you are down with rheumatism; if you sneeze, feel chilled, are choked with catarrhs, have a cough, or your skin is pimply and irritated with rash, eczema, or any other blood disorder just remember that all the life force comes from pure blood. And you can easily give your blood a good thorough cleansing, a bath by using S. S. S. There is no need for anyone to be dependent over the lives of blood impurities. No matter how badly they attack the system, or how unsightly becomes the skin, just remember there is one ingredient in S. S. S. that so stimulates the cellular tissues throughout the body that each is so active its own essential nutrient from the blood.

This means that all decay, all breaking down of the tissues, is checked and repair work begins. S. S. S. has such a specific influence on all local cells as to preserve their mutual welfare and afford a proper relative assistance to each other. For many years people relied upon Mercury, Iodine, Potash, Arsenic, "Physics," Cathartics and "Dose" as remedies for blood sickness, but now the pure vegetable S. S. S. is their safeguard.

You can get S. S. S. in any drug store, but insist upon having it. And you should take no chance by permitting anyone to recommend a substitute. And if your blood condition is such that you would like to consult a Specialist freely, address Medical Dept., The Swift Specific Co., 218 Swift Bldg., Atlanta, Ga.

ILLINOIS MAN SUFFERED 15 YEARS; FIRST DOSE GIVES STOMACH RELIEF

F. A. Anderson Says Mayr's Remedy Makes Him Feel Like New Man.

F. A. Anderson of Custer Park, Ill., for many years suffered from stomach ailments and took a great deal of treatment of various kinds. At last he discovered Mayr's Wonderful Stomach Remedy. The results he sought came immediately. In a letter telling of his experience he said:

"I took the sample dose of your remedy and the results were wonderful. I began to feel better right away. I have since taken two bottles of your Wonderful Stomach Remedy. I have been suffering more or less for the past fifteen years and doctored with a great many doctors, but could never get any relief until I took your medicine. Now I am feeling like a new man."

Letters like that come from hun-

drreds and hundreds of people in Illinois and all over the country. The remedy is known everywhere. The first dose will convince—no long treatment.

Mayr's Wonderful Stomach Remedy clears the digestive tract of mucoid accretions and poisonous matter. It brings quick relief to sufferers from ailments of the stomach, liver and bowels. Many declare it has saved them from dangerous operation; many are sure it has saved their lives.

Because of the remarkable success of this remedy there are many imitations, so be cautious. Be sure it's MAYR'S. Go to Armstrong's drug store and ask about the wonderful results it has been accomplishing. Or send to Geo. H. Mayr, Mfg. Chemist, 154-156 Whiting St., Chicago, Ill., for free book on stomach ailments and many grateful letters from people who have been restored. Any druggist can tell you its wonderful effects.

Mr. Badger, the Booster.

A letter came to the secretary's desk during the past week, that showed that one member of the Chamber of Commerce is a booster for Jacksonville. Every letter that leaves the Badger Drug Store is enclosed in an envelope telling all about the advantages of Jacksonville. This is the kind of spirit that more of us should have.

The Office of President.

Some of our own members do not realize it but in many cities, and Chicago, Peoria are no exceptions, hold the presidency of the business men's organization in high esteem.

Next to the mayor, it is the highest honor that any community can bestow on any of her citizens. Instead of shirking it is not only a duty but an honor which substantial business men should covet.

The term of President Andrews as head of the active organization which the Chamber of Commerce has been during the past year is drawing to a close. He has been a good president and it is hoped his successor to be chosen on Tuesday, Feb. 3rd, will have just as successful administration.

Committees for the Annual Meeting. The annual meeting of the organization will be held on Tuesday evening February 3rd, at a place later to be designated by the committee in charge. It is planned to serve a buffet luncheon to which every member will turn out.

The following committees have been appointed: Reception—Lee P. Allcott, chairman; Harry K. Chenoweth, Walter Bellatti, W. C. Bradish, S. S. Knoles, Dr. A. R. Gregory, Harrison King.

BOND IS AGAIN FILED.

The bond of Sheriff W. B. Rogers for collector of taxes was again filed with County Clerk Bonuff Saturday. The bond is for one million dollars and was approved by the county commissioners and sent to the state auditor. The first bond sent to the auditor was returned unapproved owing to one of the bondsmen not signing his name in full. The error was a technical one and was easily remedied.

Our Unemployed.

Just at the present time we read in the daily papers and periodicals of the thousands of men out of work. In some instances the figures have been exaggerated, but we are confronted by this problem right here in Jacksonville.

Miss Weller, superintendent of the Associated Charities and Mr. Story to the Story Employment Bureau are solicited daily by men that seek work. Most of the inquiries come from men of families that are needy and who are willing to do any kind of labor.

The Chamber of Commerce desires to forcibly bring this matter to the community's attention asking for suggestions and recommendations that will assist in relieving the present local situation.

Work Often Depends on the Man.

The man who is willing should be given the chance. There are the lazy worthless fellows, who accept charity and who make no effort to find work. The man that looks for a job can usually find one, was recently illustrated in Chicago by Mr. Harry M. Hedges of the department of psychology of Crane Technical School. He dressed himself as a hobo and found four jobs in less than three hours. They are as follows:

As a ledger clerk, \$12.50 per week.

As a shipping clerk, \$12.00 per week.

As a printer, \$25.00 per week.

As a street car employee. It is the energetic and willing unemployed person that we should help not the plain lazy tramp.

Optimism Prevails.

With the opening of the New Year business conditions are improving and optimistic reports come from bank presidents, secretary or manufacturing association and from the retail circles. The steel and iron plants, the basic industry of the country are re-employing their men, and soon others will be following suit. The commercial organizations welcome such good news and want it passed on to the other fellow.

ILLINOIS COLLEGE NOTES.

Thursday Feb. 5, will be the Day of Prayer for colleges. Rev. Martin D. Hardin of the Third Presbyterian church of Chicago, will be the speaker of the day at Illinois college. Dr. Hardin is said to be a very able speaker.

Mrs. Harry Worthington of Oak Park, Ill., is visiting her daughter, Miss Dorothy, at Academy hall.

Mr. Willard Wall, '86, of DuQuoin, Ill., was a visitor on the campus on Tuesday.

The Illinois College alumni of New York city and the east are planning to have their annual banquet early in March. The officers hope that Secretary of State Bryan may attend the banquet.

The health of the students of the college seems to be unusually good. The investigation ordered by the city her studies in the conservatory.

HEROIC FATHER TO HAVE MEMORIAL

Patterson, La., Jan. 24.—A shaft that would do credit to memory of a soldier of renown is soon to be erected by the citizens of this place over the grave of Eli Bergeren, a poor wood chopper. The memorial is to commemorate Bergeren's heroic act in deliberately sacrificing his own life in an effort to save that of his four year old daughter. The child, in his play, had wandered out of the yard and onto the railroad track near the house. As the New Orleans limited was rushing through the town the father saw his baby sitting between the rails playing gleefully with the shells that formed the ballast of the road bed. He saw that there was no chance for him to grab the child and get out of the way, so he jumped ahead of the onrushing engine and almost succeeded in hurling the little one clear. The cylinder head, however, struck and killed the child as the pilot hurled the father, mangled and lifeless, 50 feet away. Father and child were buried in the same coffin.

MISSISSIPPI HAS POISONED PEN CASES.

Jackson, Miss., Jan. 24.—Members of the Mississippi legislature are receiving daily requests from individuals and organizations throughout the state urging that they leave no stone unturned in the effort to ascertain the identity of the anonymous letter writer who attacked the character of the 840 young women students at the state college. Charges of immorality of the most sensational character were made in the anonymous communication recently sent to the legislature. Women's clubs and other organizations, aroused by the present agitation, have taken opportunity to vote their approval of the wearing of bloomers by the girls in the gymnasium classes and the wearing of one piece bathing suits in the natatorium.

WILL CELEBRATE MINISTER'S SILVER JUBILEE TODAY

Rt. Reverend Boyd Vincent—Has Been Bishop of Southern Ohio for Protestant Episcopal Church for Twenty-five Years.

Cincinnati, Jan. 24.—Tomorrow will witness one of the most notable demonstrations of love, respect and veneration that has ever been paid to a prelate of the Protestant Episcopal church in the United States. The occasion will be the 25th anniversary of the consecration of the Rt. Rev. Boyd Vincent as bishop of southern Ohio. Arrangements for the jubilee celebration have been going forward for many weeks and today the final details of the program were completed.

The celebration will be divided into two parts. The church celebration will be held tomorrow and will be followed on Monday by the social features of the program. The opening service will be held in St. Paul's cathedral at 7:30 o'clock tomorrow morning. Coadjutor Bishop Reese of Columbus will be the principal speaker. At 11 o'clock there will be another service, with Bishop Whitehead of Pittsburgh as the speaker. A special feature of this service will be the music, for the choir will sing a festival to deum as a special act of thanksgiving for the bishop's episcopate.

Sunday evening there will be a great Episcopal reunion service at the cathedral. The principal speakers will be Bishop Leonard of Cleveland, Dr. D. W. Rhodes of Cincinnati and J. A. Gallaher of Marietta. Among the Episcopal church leaders who will take part in the various services of the day, in addition to the prelates already named, will be Bishop Tuttle of St. Louis, Bishop Woodcock of Louisville, Bishop Burton of Lexington, Bishop Frances of Indianapolis, Bishop White of Michigan City, Bishop Anderson of Chicago, and Bishop Gravatt of West Virginia.

The program for Monday will open with a morning service in the cathedral at which Bishop Vincent will celebrate holy communion and deliver an address. At noon the cathedral congregation will give a luncheon for the bishop and the noted visitors. In the afternoon Bishop Vincent will receive the visiting bishops and clergy at the Episcopal residence. The program will be concluded in the evening with a reception by the Episcopal church club.

During his long residence in this city Bishop Vincent has endeavored himself to persons without regard to creed or condition, by his Christian charity, his infinite tact, his universal sympathy and his sincere interest in all that concerned the public welfare.

Bishop Vincent was born in Erie, Pa., in 1845. He studied at Yale university and graduated with the degree of B. A. in 1867, receiving the degree of M. A. three years later. He graduated also at Berkeley Divinity school in 1871. The same year he was ordained a deacon of the Episcopal church, and the following year was ordained priest by Bishop Kerfoot.

On entering the ministry as deacon, he was assistant of St. Paul's church, in Erie, until 1872, when he accepted a call to the rectorship of the Church of the Cross and Crown, in Erie, remaining there two years. In 1874 he became rector of Calvary church, in Pittsburgh, remaining there fifteen years and resigning in 1889 to become bishop coadjutor of southern Ohio. He was consecrated by Bishops Whitehead, Dudley, Penick, Spadling and Knickerbocker. Five years later he was made bishop of southern Ohio.

CENTENARY OF WILMOT OF PROVISIO FAME.

Towanda, Fla., Jan. 24.—By persons interested in historical dates and anniversaries the present week was recalled as the centenary of the birth of David Wilmot, celebrated in the history of the United States as the author of the "Wilmot Proviso." Wilmot was born in the village of Bethany, Jan. 20, 1814, and died in this city in 1868. In the days when the slavery controversy was at its height he was a Pennsylvania representative in congress. When a bill was introduced in the house appropriating money for the purchase of a part of Mexican territory Mr. Wilmot introduced his famous "proviso" to prohibit the United States from acquiring any new territory unless the prohibition of slavery in such territory was made a condition of the purchase. In the latter years of his life Mr. Wilmot served for a time in the United States senate and at the time of his death was a judge of the United States court of claims.

GIRLS! STOP WASHING

THE HAIR WITH SOAP

Soap Dries Your Scalp, Causing Dandruff, Then Hair Falls Out—Try This Next Time.

After washing your hair with soap always apply a little Danderine to the scalp to invigorate the hair and prevent dryness. Better still, use soap as sparingly as possible, and instead have a "Danderine Hair Cleanse." Just moisten a cloth with Danderine and draw it carefully through your hair taking one strand at a time. This will remove dust, dirt and excessive oil. In a few moments you will be amazed, your hair will not only be clean, but it will be wavy, fluffy and abundant, and possess an incomparable softness and lustre.

Besides cleansing and beautifying the hair, one application of Danderine dissolves every particle of dandruff; stimulates the scalp, stopping itching and falling hair. Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating and life-producing properties cause the hair to grow long, strong and beautiful.

Men! Ladies! You can surely have lots of charming hair. Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it.

WOMAN'S COLLEGE NOTES.

On Saturday night, Jan. 31, Montaville Flowers will give an interpretative recital on Hamlet. Mr. Flowers is most successful in his Shakespearean recitals. This is one of the numbers in the Artist's course and the attention of the ticket holders is called to this date. The program will begin at 8 o'clock.

The semester examinations take place the last three days of January. Work on the second semester begins February 3. Enrollment for the second semester may be arranged at any time. Now is a good time to plan for special work of all kinds. The school of home economics will conduct children's classes in practice teaching, so that the graduates may have the actual practice, under the supervision of the department head. This is a splendid opportunity for children who are interested in that line of work.

The committee on drawing up the rules for the student government for the house, has made its report. These rules will now be submitted to a vote of the resident students. This is the most important student work that has been done for a good many years.

The committee on evaluation has been at work on limiting the amount of activities which occupy the time of the students. Their report will soon be in shape to be presented for adoption.

The day of prayer will be appropriately observed February 5. Bishop Shephard will preach the sermon. The geology department has received a number of specimens from the Smithsonian institute for use in the laboratory.

The bacteriological department has recently received a shipment of microscopic slides from St. Louis.

MISS MAUDE SMITH MADE

FINE RECORD IN ELKHART

Paper in Indiana City Gives Word of Praise to Recently Appointed Art Instructor in Jacksonville Schools.

The Elkhart, Ind., Truth in a recent issue makes the following complimentary notice of the resignation of Miss Maude Smith who gave up her work there in order to become art instructor in the schools of Jacksonville.

Miss Maude Smith, supervisor of art in the local public schools, has tendered her resignation, and will leave next Sunday morning for Jacksonville, Ill., her home city, where she has been appointed supervisor of drawing in the public schools.

Miss Smith, who leaves Elkhart in the middle of her fifth year as head of the art department, decided to make the change on account of ill health of her mother, and the recent death of her sister. Prior to coming to this city she taught in the Jacksonville schools.

Miss Ruth Kelley, a native of Elkhart and who, for a number of years was a successful teacher in the Central school of this city, and who, for the past six years has been a very successful supervisor in the Mishawaka schools, is strongly considered for the position by Supt. Drake and the school board. Miss Kelley is a graduate of the Chicago Art institute.

Under the supervision of Miss Smith the art departments of the schools have made rapid strides in the instructing of art in useful, practical and commercial ways. A gradual introduction of vocational work has been made, and the three crafts—basketry, leather and metal work—have been introduced. Beside free-hand drawing, which had already been instituted in the schools, Miss Smith, upon her coming, introduced commercial design, or drawing for advertising, and all other work in the commercial world. The term just ended has been devoted to planning an extensive course in this work, and a book plate for the use of the high school library was well under construction. Pencil, charcoal and other kinds of art work have rapidly advanced under the supervision of Miss Smith.

Miss Smith has spent her summers studying art instruction at the University of New York, under Dr. Haney, supervisor of drawing in the New York high schools. She has also studied free work under H. D. Ferris, in charge of the reed work in the Sidway plant, and a number of reed chairs and a table which she constructed a few months ago attracted much attention and many favorable comments at the high school.

The first prizes in public school drawing and hand work at last fall's county fair were awarded to the local high school.

PLAYS AND PLAYERS.

Henry Miller denies the report that he is to retire from the stage.

William Courtenay is being featured in the new play, "Under Cover." A change has been made in the management of the La Salle opera house, Chicago.

Margaret Anglin and her company of Shakespearean players are touring Canada.

It is twelve years since David Warfield first appeared as Simon Levi in "The Auctioneer."

Falling as a vaudeville star, Miss Henrietta Crozman has resurrected Edward Childs Carpenter's comedy called "The Tongues of Men."

Miss Georgia Caine announces that she will desert musical comedy at the end of this season and will act next year in a new comedy.

"Diane of the Green Van," the \$10,000 prize story written by Miss Lenora Dalrymple of Passaic, N. J., is to be seen on the stage soon.

Edith Wynne Mathison is about to appear in a new American play called "The Deadlock," of which Miss Margaret Trumbull is the author.

The Shubert production of "The Midnight Girl" is to be given its first performance in Providence next Monday night and will then be taken to New York.

Joseph Howard is planning a revival of "A Broadway Honeymoon," the cast to include, besides himself, Trixie Friganza, Mabel McCane and Arthur Deagan.

"The Conspiracy" is shortly to be produced in Berlin, with Herr Krauker, an eminent actor of the German stage, playing the role of Claverling.

Ethel Jackson, who was the original "Merry Widow" on this side of the Atlantic, has started on a vaudeville tour which will last through the remainder of the season.

Margaret Romaine, who has appeared under the management of George Edwards in London, is to be the prima donna in the Shubert production of "The Midnight Girl." Present indications are that "The Legend of Lenora," the new Barrie play in which Maude Adams is appearing, may rival the success of "Peter Pan."

Alan Campbell, a son of Mrs. Patrick Campbell, has become a theatrical manager in London. His first production was a comedy called "The Night Hawk."

Henry V. Esmond, the eminent English actor, and his company are to appear first in New York on their American tour in Mr. Esmond's play, "Eliza Comes to Stay."

Leslie Kenyon, the English actor who has just died in New York, first came to the United States in 1902 to take part in Richard Mansfield's revival of "Julius Caesar."

The cast in Percy Mackaye's new oriental romance, "A Thousand Years Ago," which has just had its first presentation in New York, includes such well known players as Henry E. Dixey, Frederick Warde, Sheldon Lewis, Frank McCormack, Rita Jolivet, Edmund Roth, Albert Hovson and Allen Thomas.

ELECTRICITY FROM WINDMILLS.

Since the announcement of a successful private electric plant operated by a windmill there has been considerable speculation as to the amount of theoretical horse power which can be developed by the wind.

It is entirely possible to install a small home lighting plant, consisting of a dynamo and storage battery, so it can be operated by windmill power. Of course, such plants are suitable only for the lighting of a few small lamps.

The principal component of a windmill is the wheel, the spindle of which is turned parallel to the direction of the prevailing wind (by a guide vane), in order that all blades may work uniformly. To avoid wasteful eddy currents, the blades should not be too close together, and should not extend to the center of the wheel. The following table shows the horse power which can be theoretically realized from a 28-foot wheel exposed to winds of various velocities:

Speed of wind, m.p.h.	H.P.	Speed of wind, m.p.h.	H.P.
2.25	0.04	22.5	49
6.7	1.1	33.5	135
11.2	5.0	45.0	520
15.7	13.0	67.0	1080

The power available should increase with the cube of wind velocity (since the kinetic energy of the air particles increases with the square of their velocity and the number of them striking the wheel blades per second increases in direct proportion to the wind velocity). It is not practicable to construct a mill which will utilize with equal efficiency a light breeze and a strong wind, hence the curvature and setting of the blades should be such that the mill works most efficiently when exposed to a wind of the velocity generally prevailing in the district concerned. If a wheel be designed to utilize with maximum efficiency a wind of 22.5 m.p.h., it will not run in a 7 m.p.h. breeze, since the power corresponding to this wind is less than the power required to overcome the light load losses of the wheel and its gearing. Breezes of 8 to 15 m.p.h. are much more common than 20 m.p.h. winds, hence it is generally advisable to employ, for driving or other dynamos, a very light wheel when the wind rises to 10 m.p.h. wind, and which can still be used when the wind rises to 30 m.p.h. Such a wheel could not be exposed fully to a 30 m.p.h. wind, and for safety a device should be mounted on the main wheel, so that, when the wind pressure exceeds a certain limit, the inclination of the blades is changed, against the control of a spring, in such a manner as to reduce the effective area exposed to the wind. The control springs may conveniently be set so that they come into operation when the wind velocity exceeds 16 m.p.h., and so that the output of the mill is constant in winds above 18 m.p.h.; there is thus secured maximum total annual output. Dynamos employed with windmills should not be excited from the battery, since the voltage of the latter may be very low after a long period of calm weather. The automatic main dynamo switch should operate when the machine voltage just equals that of the batteries, and mercury contacts should not be used.

A COROLLARY OF EUGENICS.

(Ralph Bergengren in the New York Sun).

When John and Jane were married by Eugenic Parson Brown, The news of it was carried by The papers of the town, With photographs of Jane and John, And editorial comment on A union that complied with science And set mere fashion at defiance.

Indeed, a more eugenic match, With two more perfect mates, It had been very hard to catch In these United States. Eugenic Parson Brown declared Of all the young folks he had paired They were, it could not be debated, Most thoroughly certificated.

A spade's a spade, and one and one Are two, and then are three, Nor John nor Jane would ever shun Their obvious duties.

The papers photographed the treasure With Parson Brown (to give good measure).

And said an age of neurasthenics Was shamed by such applied eugenics.

This perfect infant, strange to say, Surprised his pa and ma By showing symptoms, plain as day, Of kleptomania.

The truth developed fast. In fine He'd no idea of mine and thine. Probation did its best and failed. At twenty-one the chap was jailed.

For though the fact was long forgot An ancestor of Jane

Had been about as tough a lot As ever prigged a chain.

A nimble fingered, lusty lad, Who went completely to the bad, And in the galleys had to row Two hundred years or more ago.

And as for John, an ancestress In 1693

Had worn the current prison dress For careless thievery.

Which tenderly was carried on, A latent trait in honest John, Until it met the trait in Jane And thus produced a thief again.

In which a moral we may see: Though well for conversation, Our knowledge of heredity

Has yet no firm foundation. If John and Jane had not been wed, But married otherwise instead, The chances are the state would lack At least one kleptomaniac.

PROMINENT MEN TO SPEAK HERE MONDAY

"SEE THIS THING THROUGH" TEMPERANCE RALLY IS PLANNED.

John G. Wooley, Dr. Howard Russell and Scott McBride Among Those Who Will Take Part in the Day's Proceedings—Noonday Luncheon at Grace Church.

Next Monday, January 26, there will be important meetings at Grace M. E. church, when John G. Wooley, Howard Russell, founder of the Anti-Saloon league, and F. Scott McBride, state superintendent of the league, will speak and Prof. Thatcher will sing. The general meeting will be held at 7:30 p. m. There will be other meetings at 12 noon, when a general convention and luncheon will be on the program, and a woman's meeting at 2 p. m.

The luncheon will be for ladies and gentlemen and reservations will be made at 35 cents. Those intending to partake will please telephone to Mrs. J. H. Danskin, 759 Illinois phone.

The speakers are men known nationwide for their work for the cause. Prof. Thatcher is the sweet voiced singer who has often pleased Jacksonville audiences. Any person who has heard them will be glad of the opportunity to attend the meetings.

NEWBRO'S HERPICIDE

To have beautiful hair use NEWBRO'S HERPICIDE, the Dandruff Eradicator and Scalp Prophylactic.

Dandruff causes the hair to become harsh, brittle and uneven. It not only checks the natural growth, but finally saps the life of the hair and it falls out.

To realize the true virtue of Newbro's Herpicide one must use it regularly and intelligently. It is not alone by keeping the scalp clean and free from the scale like accumulations, called dandruff and preventing the hair from falling out that Herpicide demonstrates its great merit. This is also shown by the increased beauty of the hair, which takes on a luster and charm that cannot be denied. There is no mistaking the hair which is treated to an application of Newbro's Herpicide two or three times a week. It has a sheen, shimmer and life beautiful to the eye and indicating health and cleanliness in both hair and scalp.

Herpicide is a delightful hair dressing and has a dainty and exquisite odor. You will like Herpicide. It stops itching almost instantly.

Two Sizes, Fifty Cents and One Dollar.

Sold everywhere and satisfaction guaranteed or money refunded. Applications may be obtained at all first class barber shops and hair dressing parlors.

There are many imitations of Herpicide and a score of preparations claimed to be "just as good." Demand the genuine article and get it. Herpicide produces results that satisfy.

Send 10 cents in silver or postage to the HERPICIDE CO., Dept. 83 R, Detroit, Mich., for a trial bottle and a pamphlet, telling all about the hair and its care, which are sent to any address postage paid. See coupon.

HARRIGANBROS

SAYS IMPURE MILK NOT CAUSE OF PREVAILING SORE THROAT

Dr. Charles E. Gabel, Food Commission Bacteriologist, is Investigating Local Dairy Conditions—Sees Room for Improvement.

Dr. Chas. E. Gabel, bacteriologist for the Illinois State Food Commission, who is here to look into the condition of the milk supply of Jacksonville, does not think that the quality or condition of the milk has anything to do with the prevailing sore throats. Dr. Gabel said yesterday that the complaints which have been made to the commission with reference to the local milk supply were based somewhat on the belief that the milk was in some way causing this throat trouble which has almost amounted to an epidemic. However, Dr. Gabel, does think that in a number of instances the milk sold does not measure up to the quality and standard which is desirable. Samples have been taken from ten different dairies around the city and tests are in the process of making, as before stated, these tests are being made at Jacksonville State Hospital laboratory. These tests however concern only the question of germs and bacteria in the milk and have no bearing as to the amount of butter fat. For this test the samples of milk after having some preservative added will be sent to the Chicago laboratory of the commission.

Not Caused by Impure Milk. "I am making tests of the various samples of milk obtained from ten different sources," said Dr. Gabel yesterday. "While I have not completed all these tests," he said further, "I have gone far enough to make up my mind that your sore throat troubles here in Jacksonville are not occasioned by impure milk supply. There are frequent cases of sore throat which are caused by impure milk and in such instances the cause of impurity is usually the fact that the cows udder is in an inflamed condition. This inflammation seems to result in the production of the throat. We make tests of milk samples by the commonly known method of growing bacteria therein. It takes two days for the growth to take place which indicates the facts that we are seeking. Another method of making tests is with the centrifugal is a sort of whirling apparatus which is somewhat like a separator in its action except that the milk is not poured off or removed. The result simply is that there is a certain sediment which forms in the sedimentation tubes and particles from this are stained and placed upon slides for microscopic examination. So far as the nutrient in milk, that is the butter fat, the tests made here have no bearing and I will send in the samples after adding a preservative into the Chicago laboratory of the commission. These tests will be made to find out if the milk contained at least 3 per cent of butter fat as required by law. If it is deficient in this regard, or if the tests I am making here show an excess of bacteria usually occasioned by uncleanly conditions then the dairymen will be notified to come in and furnish explanation of defective conditions. Then if proper explanations are not given a fine is assessed. Subsequently the food commission sends inspectors around to the various dairies to see if the conditions which have been condemned or complained of have been remedied and if not then there is more serious trouble for the dairymen.

Uncleanly Conditions. "While I do not think that your sore throat trouble has been caused by the milk supply some of the samples which I have taken do indicate that there are uncleanly conditions in some of the dairies here. This is shown by the excess of bacteria. In some instances these result because the dairy barns have not been kept clean and sanitary. In other instances the conditions are the result of the improper cleaning of cans and other utensils and in still other cases the cause is the fact that the cow's udder has not been thoroughly cleaned and dirt gets into the milk. One very frequent cause of an unsanitary condition is the use of a cloth strainer which cannot be cleaned and boiled like a metallic strainer. The department continually advocates the use of a metallic strainer. The work in which the commission is engaged is simply in trying to protect the people in the matter of health and to see that they get value received for the expenditures they are making. In insisting on clean dairy conditions the commission is imposing no hardships on the dairymen but are making conditions which in the end are more profitable for the dairymen and much better for the public at large.

LOUISIANA TO DIVERSIFY CROPS. New Orleans, Jan. 24.—Owing to the changed agricultural conditions following the reduction of the sugar tariff, Charles Goodchaux has resigned his place as head of one of the largest banks in New Orleans to devote his entire time to the study of the utilization of the large tracts of rich lands that will have to be devoted to other purposes than the growing of sugar cane. One experiment that will be tried this year will be the planting of tomatoes on a large scale. Various other crops will be tried out in an endeavor to find a profitable substitute for the sugar cane.

MI-O-NA FIRST AID TO SICK STOMACH

Distress after eating, belching of gas and undigested food, that lump of lead feeling in the stomach, headache, biliousness and lack of energy, are warning signals. Now—at once—is the time to take precaution and stop this distress.

Mi-o-na Stomach Tablets is the remedy. Get a fifty cent box today. Their action is safe, effective and immediate. Besides surely and quickly stopping the distress, Mi-o-na soothes the irritated walls of the stomach and strengthens the gastric glands so that they pour out their daily supply of digestive materials, causing prompt digestion and assimilation of the food. Then the entire system is properly nourished.

Mi-o-na is not an experiment. It is not a cure all. It is a scientific remedy recommended for but one thing—out-of-order stomachs. Always have Mi-o-na handy at home or traveling.

Mi-o-na is always sold on the money back if not benefited plan. Druggists everywhere.—Adv.

PASSAVANT HOSPITAL TRUSTEES

All pastors of churches and all Passavant hospital trustees are especially urged to be present at the hospital tomorrow, Monday evening at the annual meeting of the trustees. Important business is to be transacted and there should be a full attendance.

NEWS FORECAST FOR THE COMING WEEK.

Washington, Jan. 24.—Arguments in the governments civil suit against the Chicago butter and egg board for alleged violations of the Sherman anti-trust law are scheduled to begin Monday before Judge Landis in the federal court at Chicago.

Miss Alice Paul, chairman of the Congressional union for Women Suffrage, has issued a call for working women throughout the country to assemble in Washington next Saturday to call on President Wilson at the white house and present a "working women's demand for the ballot."

Wednesday will be widely celebrated as the birthday anniversary of President William McKinley. One of the most notable observances will be a banquet given by the Ohio Society of Washington. Justice Day of the supreme court of the United States will preside and addresses will be delivered by Senator Sherman of Illinois and other men of national prominence.

Arrangements are being made by organized labor to give a big dinner in the capital Tuesday night in honor of Samuel Gompers, president of the American Federation of Labor. The occasion will be Mr. Gompers' 64th birthday anniversary.

A special meeting of the directors of the National Independent Telephone company will be held in Chicago Friday to discuss the proposed agreement with the American Telegraph and Telephone company. The agreement provides a plan of co-operation between the American company's long distance lines and the local independent companies, which, it is said, has been approved by the federal government.

Important developments are expected to follow the annual conference of the British Labor party, which is to begin its sessions in Glasgow Wednesday. The conference will be the first that the labor party has held since it became lawful for trade unions to apply funds to political objects. In consequence of the new conditions that have arisen the party conference is expected to adopt an unusually strong electoral and parliamentary policy.

You Want to Improve Your Home READ THIS

Folks say, Of course the Light Company can afford to wire our houses for cost. They sell light, not wire and labor. And they are right. We wire your house for cost and in addition allow twelve months to pay.

We wired your friend's house—ask 'em. Let us estimate and give you a surprise. Really, it's only a trifle.

HERE'S AN EXTRA PAIR OF TROUSERS FOR YOU, FREE

This means just what it says. There is no trick or scheme hidden behind the offer--an extra pair of trousers free with every suit purchased during this week.

It's the same old song, but it is true. The weather conditions are such that we are left with a big stock of high grade woollens on our hands. They must be sold. We must have the money. We must keep our tailors busy in order to keep them in town.

An extra pair of Trousers, with any Suit, is a most acceptable idea. You may have the extra made up from the same material as the Suit, or may select from our big stock of elegant trousers patterns.

Those same low sale prices are still in effect, and in addition we give you the extra pair of trousers absolutely free.

Every garment guaranteed satisfactory. Don't miss this chance. At least, come in and investigate our offer and give us the opportunity to show you.

The receipts for the office for December 1913 were \$5,987.74 and during December 1912, \$5,121.54.

During the month of November 1913 there was delivered on the rural routes from the office 67,306 pieces of mail, aggregating a weight of 10,132 pounds and 6,149 pieces were collected during the same period, weighing 281 pounds.

The report shows a very substantial increase in each item except the number of foreign money orders issued and paid.

As has been previously mentioned during the year there was added to the post office an extra room, taken off the west end of the corridor and used by the stamp department. This room has to some extent relieved the congestion of the work room.

MATRIMONIAL

Spires-Seymour.

The marriage of Edgar F. Spires and Miss Hazel Seymour, was solemnized Saturday evening at 6 o'clock at the residence of Rev. J. W. Kettle, pastor of the Providence Methodist church. They were attended by Miss Della Spires, a sister of the groom and Gafen R. Seymour, brother of the bride.

The bride is the daughter of Mr. and Mrs. Barton Seymour of the Nortonville precinct and the groom is the son of Mr. and Mrs. Francis M. Spires of the Hartland neighborhood. Both young people come from well known families and are highly regarded by all who know them. They expect to make their home on a farm near Nortonville, recently purchased by the groom of Payton Henry.

Following the ceremony last night Mr. and Mrs. Spires went to the home of the bride's parents where a wedding supper was served in their honor.

THINKS "TANGO" WILL

BE PERMANENT DANCE

Jacksonville Woman Agrees With "Independent" in Approval of New Light Fantastic.

"The Kaiser has set his seal of disapproval upon the tango. Throughout the Fatherland the edict has gone forth, 'The Tango must go.' Well, so much the worse—for the Kaiser," says the New York Independent of recent date which continues with the assertion that "even Hercules would have been no match for the task of making the world stop dancing."

"The tango must go," many literary, ecclesiastical and educational authorities of America and have decreed, but there are two sides to every question, a prominent woman of Jacksonville points out, and the tango seems to be here to stay. As the Independent says: "The new dances are better than the old."

"For this there are several reasons. In the first place, we have discovered a new dance rhythm. The good old waltz went 'one, two, three' and the two-step went 'one, two, one, two,' a perfectly good rhythm of its kind. The one step has reduced the rhythm to its lowest terms—'one, one, one, one,'—a rhythm as fascinating as it is primitive. Then, too, the new dances are as various as human nature itself. The new dances, par excellence, gave oxygen to the blood, vigor to the muscles, gaiety to the spirits, refreshments to the mind. Already their early exuberances, which squinted toward vulgarity, are taming down. They have received no fiercer denunciation than did the waltz when it appeared."

"On with the dance."
